T.P.VERMA   NKE

PROJECTS

TP Bazar

Description:

- **Technologies**: React.js, JavaScript, MySQL, Node.js, Razorpay.
- Created a software called TP Bazar, an e-commerce platform that manages e-commerce details, employee details and allows users to buy products according to their needs, similar to Amazon.

AR Elite Fit

Description:

- **Technologies**: React.js, JavaScript, MySQL, Node.js, Razorpay.
- AR Elite Fit is an online fitness training brand that helps people achieve their fitness goals through consultation, counseling, and much more. AR Elite Fit provides a variety of fitness sessions such as functional training, strength training, bodyweight training, cardio, HIIT, dance fitness, yoga, Pilates, and more.

HR Management

Description:

- **Technologies**: React.js, JavaScript, Nodejs, MySQL.
- An effective HR management system is used to manage the work process and organizational responsibilities of human resources and other departments.

Littera-Learning-Plateform

Description:

- **Technologies**: React.js, JavaScript, Nodejs, MySQL.
- We used this project to provide online training and manage sessions. Both employees and participants registered on the platform. We managed the scheduling of sessions for each faculty member and handled all related details. Additionally, we managed any documents shared by the faculty. If a student missed any training, they could access the uploaded session later.

DECLARATION

I here by declare that the above-given information is true and accurate to the best of my knowledge.
