PROFESSIONAL SUMMARY

Java Professional with 1 year of experience in core and advanced Java, Spring Boot, Rest API & MYSQL. Experienced Java developer with a strong track record in designing and implementing scalable software solutions. Proficient in full-stack development, with expertise in Java, Spring, and agile methodologies. Adept at problem-solving and collaborating with cross-functional teams to deliver high-quality, efficient code. Committed to staying updated with the latest technologies to drive innovation and exceed project expectations. **Ready to deliver impactful solutions for your organization's success.**

SKILLS AND ACCOMPLISHMENTS

- **Core Java:** Strong grasp of object-oriented programming.
- **Advanced Java:** Knowledge of Servlet ,JSP, multithreading, collections , JDBC & Rest API.
- **Java Frameworks:** Familiarity with Spring Boot and Hibernate.
- **Database:** Proficient in SQL queries and MySQL.
- **Web Development:** Knowledge of HTML, CSS, JavaScript.
- **Version Control:** Knowledgeable in Git for code management and collaboration.
- **Debugging:** Skilled in debugging, and code quality.
- **Problem Solving:** Strong analytical skills for resolving complex technical challenges.
- **Communication:** Effective collaboration and communication with teams, stakeholders, and clients.
- **Continuous Learning:** Proactively staying updated with emerging technologies and industry trends.

WORK EXPERIENCE

JAVA DEVELOPER | Bayatree, Mohali

(02/2023) – (10/2023)

Project1 |Registry Management System, Bayatree, Mohali

A Registry Management System in Java is designed to efficiently store, manage, and retrieve data records. It offers features like data categorization, search functionality, and user access controls. This system streamlines data organization and retrieval, enhancing information management for various applications.

Responsibilities:

- Developed efficient and scalable Java code, leveraging Servlet JSP, resulting in a 20% improvement in application performance.
- Resolved critical bugs and issues through meticulous debugging and testing, ensuring a bug fix success rate of 95%.
- Integrated Java applications with databases (e.g. MySQL), optimizing database schemas and executing SQL queries for seamless data retrieval and storage.
- Conducted code reviews, resolving 90% of bugs and enhancing application performance by 15%.

- Achieved an on-time delivery rate of 95% by utilizing Agile methodologies and delivering software modules within tight deadlines.
- Reduced integration time by 30% through collaboration with cross-functional teams for seamless integration.
- Improved software quality by decreasing post-release defects by 20% through close collaboration with QA teams.

JAVA DEVELOPER INTERN | Foxit,Noida

(05/2022) – (11/2022)

Project2 | Online Time Tracker, Foxit eSign, Noida

An online time tracker is a digital tool that helps users efficiently monitor and manage their time. It allows individuals to record and categorize their activities, track work hours, and analyze productivity. Users can set goals and receive notifications, enhancing their time management skills. Additionally, time trackers often generate reports and insights, aiding in better decision-making and optimizing time utilization.

Responsibilities:

- Designed and developed new reporting features and export options, resulting in a 30% increase in user engagement.
- Collaborated closely with cross-functional teams, including designers and QA engineers, to ensure seamless development and high-quality deliverables.
- Improved the reports section's user experience, contributing to a 20% increase in overall user satisfaction.
- Collaborated with the product team to gather user requirements and conducted usability testing to ensure the new features met user needs.
- Created and maintained comprehensive project documentation, including technical specifications and user manuals..
- Conducted thorough testing and debugging to identify and resolve issues.
- Actively participated in code reviews, providing valuable feedback to improve code quality and maintain best practices in java development.

EDUCATION

BTech (Bachelor of Technology) in Computer Science

Apiit Sd India, Haryana

Graduation Year (2019)

CERTIFICATIONS

- Core Java
- Advance Java
- MySQL
