Bengaluru, India – 560078

SUMMARY

Motivated Software Developer with expertise in Java, Python, and JavaScript. Proficient in Spring Boot, Hibernate, REST APIs, Microservices, and JDBC, with a strong foundation in Core Java, Data Structures & Algorithms (DSA), and Object-Oriented Programming (OOPs). Experienced in building efficient backend systems and integrating MySQL databases to deliver high-performance applications. Passionate about problem-solving, writing clean code, and optimizing system performance in fast-paced environments.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, C, Dart (Flutter)
- **Frameworks & Libraries:** Spring Boot, Hibernate, Spring Boot JPA, Flutter
- **Web Technologies:** HTML, CSS, JavaScript
- **Databases:** MySQL
- **Testing Tools:** JUnit
- **Concepts:** Core Java, Object-Oriented Programming (OOPs), Data Structures and Algorithms (DSA)
- **Backend Technologies:** REST APIs, Microservices, JDBC

PROFESSIONAL EXPERIENCE

Flutter Developer Intern | Mobile Application Development

BIZTECHNOSYS PRIVATE LIMITED - *Jun 2024 – Sep 2024*

- Developed a Flutter-based app to streamline society tasks, transforming static designs into responsive UI and optimizing performance with team collaboration.

Web Development Intern | Front-End Development

EXTION INFOTECH - *Nov 2023 – Dec 2023*

- Developed an interactive quiz game using HTML, CSS, JavaScript, integrating Core Java for logic and ensuring a responsive, cross-browser compatible UI.

PROJECTS

Online Cab Booking System

- Built a comprehensive Java-based application for booking cabs by selecting pick-up and drop-off locations.
- Integrated dynamic features to match users with nearby drivers and estimate travel time.
- Technologies: Java, Spring MVC, Servlets, Hibernate, JDBC, JSP, HTML, CSS, MySQL.

Hospital Management System

- Developed a Java-based hospital management system using Object-Oriented Programming, Spring Boot, JDBC, and MySQL, implementing a scalable layered architecture for patient registration, appointments, and billing. Utilized REST APIs for integration, ensuring efficient backend functionality and data management with Core Java, Spring Boot JPA, and Microservices.

EDUCATION

Master of Computer Applications (MCA)

Dayananda Sagar College of Engineering, Bengaluru - *Aug 2022 – Oct 2024*

Grade: 8.3

Bachelor of Computer Applications (BCA)

Chaudhary Charan Singh University, Meerut - *Jun 2019 – Jul 2022*

Percentage: 63.4
