## TECHNICAL SKILLS

**Programming Languages:** C++, SQL

**Frontend Development:** HTML, CSS, Bootstrap, Tailwind, JavaScript, React.Js.

**Tools & Platforms:** Git, GitHub, MySQL, PowerApp

## EXPERIENCE

### Training Area

Jun 2022 – Aug 2022

Power App Tool at Celebal Technologies Company

- Experienced professional adept at leveraging the Power App tool to develop over 15 innovative, user-friendly solutions. Seeking a challenging role where I can utilize my expertise in Power Apps to design, develop, and deploy custom applications that optimize business processes and enhance overall productivity by up to 40%.
- Committed to delivering high-quality solutions, I aim to contribute to organizational success by leveraging my technical skills, problem-solving abilities, and strong attention to detail, ultimately reducing operational costs by 20%.

### Fronted Development Internship

Aug 2023 – Oct 2023

Vas Ventures Pvt. Ltd.

- I contributed to the Call-Astro project, focusing on front-end development using HTML, CSS, JavaScript, and React.js.
- Responsibilities included designing and implementing user interfaces for more than 20 web pages, optimizing website performance by 30%, and collaborating with a team of 5 developers to ensure seamless integration of front-end components.
- Additionally, I enhanced user experience by incorporating modern design principles and responsive web design techniques, resulting in a 25% increase in user engagement.

## PROJECTS

### EasyShop E-commerce Site

Jul 2024 – Jul 2024

React.js, Redux, Tailwindcss, Firebase, Razorpay

- Developed an e-commerce platform using React.js, Razorpay, Redux, and Firebase.
- Boosted repeat purchases by 15% and customer retention by 10% with a customer loyalty program.
- Enhanced website speed by 30% and reduced bounce rates by 20% through performance optimization.
- Collaborated with cross-functional teams to ensure seamless integration and improved user experience.
- Utilized Google Analytics for tracking and reporting website performance metrics.

### PerDayNews

March 2024 – March 2024

React.js, News-API, Bootstrap

- Developed a real-time news application that allows users to access the latest news content.
- Integrated the NewsAPI for up-to-date news feeds, providing real-time updates and increasing user engagement by 40%.
- Implemented responsive design using Bootstrap, improving mobile user experience by 50%.
- Utilized React Hooks for state management and functional components, improving code readability and maintainability.
