👤 Profile

An adaptive software engineer having 1.5 years of experience with a deep passion for building impactful products. Enthusiasm lies in problem-solving and utilizing my coding skills to create innovative solutions. Successfully completed multiple internships alongside a full-time job, enhancing my expertise in software development.

🧠 Frontend Development

JavaScript • TypeScript • React Js • HTML/CSS

🧠 Backend Development

Node JS • Express JS • Python • MongoDB • Django • mySQL

🧠 Frameworks and Libraries

Material UI • Ant Design • Bootstrap • Tailwind • Redux Toolkit • React Router

🧠 Problem-Solving

Data Structures and Algorithms

🧠 Soft Skills

Adaptability, Critical-thinking, Creativity, Self-motivation, Empathy, Continuous learning

🎓 Education

Bachelor of computer applications

📁 Professional Experience

webrankup.com Frontend Developer

03/2021 – 03/2024 | New Delhi, India

- Converted several Figma designs into responsive, cross-browser-compatible user interfaces.
- Retrieved data from APIs and integrated it into dynamic pages seamlessly, deployed applications on the digital ocean.
- Debugging and optimizing performance of web applications using optimizing techniques.

Webologix Frontend developer Intern

09/2020 – 02/2021 | Noida, India

- Developed a dynamic navbar integrating three types of JSON data from an API, enhancing user interaction with dynamic content on the page.
- Built a table user interface capable of efficiently managing thousands of data entries retrieved from an API.
- Developed an API that facilitates seamless email sending by utilizing form data.

📁 Projects

E-commerce UI 📄

- Integrated rest APIs in dynamic pages.
- Replicated Figma designs into responsive pages.

Tech Stack: - React Js, Tailwind CSS, MUI

E-commerce App 📄

- And end to end full stack e-commerce application.

More Projects 📄
