PROJECTS

Food Ordering App
With the help of React I made a Food order application in this project I have used react concept like react hooks.
useState,useRef,useContext,useReducer and other concept has been implemented
URL- https://github.com/abhinav2851/Food-ordering-App

Login - Logout- Handler
With the help of React I have developed an application in which we can perform log in and log out activity with some awesome sideEffect also .In this project I have used different react concept like useEffect and others.

FACE RECOGNITION IN E - ATTENDANCE
This is major project.. and the system is developed for deploying an easy and secure way to taking down attendance based on face recognition.
Technology used: Python, SQL

TRAVEL AND DEVOTIONAL WEBSITE
This is minor project context with travel problem faced by the tourist in varanasi Uttarpradesh.It is static website.
Technology used: HTML5, CSS3.
