### PROFESSIONAL EXPERIENCE

**Cevious Technologies Pvt. Ltd., Full Stack Developer** 📍 02/2024 – Present | Noida, India

- Built and scaled full-stack FinTech applications from scratch, handling both frontend and backend development.
- REST APIs, integrated CRON jobs for automated reminders, and deployed projects via NGINX, Jenkins, PM2, & Ubuntu.
- Managed version control with GitHub, including branching, merging, and release management.

**AppSuccessor Media Pvt.Ltd., Frontend Developer** 📍 04/2023 – 06/2023 | Noida, India

- Built responsive and user-friendly websites using React.js, JavaScript, HTML, CSS, and Tailwind. Turned Figma designs into clean, fast, and mobile-ready web pages with a focus on good layout and usability.

### PROJECTS

**MrAiX, (FinTech Web App - MERN Stack)** 📍

- Built full-featured FinTech portal to manage customers, vendors, ledgers, products, subscriptions, sales & purchases etc.
- Integrated with Tally for real-time matching of **receivables** and **payables**, & **account statement** tracking.
- Implemented **materialized views** to boost performance by **70%** and enable fast generation of complex financial reports.
- Integrated third-party APIs, automated subscription and plans, **reminders** (outstanding and overdue) based on templates, **RBAC**. etc.

**Setufi, (Fintech Web App - MERN Stack)** 📍

- Project integrated with tally, Sales, Purchases, Ledger, Customer, **Automated payment reminder** etc.
- Realtime data on sales, purchase inventory, accounting and etc.
- Cashflow management system, Receivable and Payables.

**roomXplore, (Rental Web App - MERN Stack)** 📍

- Developed a complete rental web app where landlords can list properties, add nearby locations and users can explore, review, and save listings etc.
- Implemented **OTP**-based auth, secure password reset, role-based access (**Admin/Super Admin**), and image storage via Cloudinary.
- Built end-to-end features from frontend to backend, including deployment and location-based listing management.

**LoginViaPasskey, (Authentication System Web App - MERN Stack)** 📍

- Developed an authentication system where user can register passkey and **login via (fingerprint/Apple Touch ID)**.

### EDUCATION

**Dewan Institute of Management and Studies,**

2020 – 2023

*Bachelor of Computer Application* 📍

### HACKATHON

**Hactoberfest 2023, [Open-source]** 📍

10/2023 – 10/2023

- I joined Hacktoberfest'23 and contributed to the open-source project "**FormBricks**" by fixing bugs and adding new features. Ranked in the **TOP10** at the FormTribe Hackathon.
