

## SUMMARY

Java Backend Developer with 3 years of experience in designing and developing robust and scalable applications. Proficient in **Java**, **Spring framework**, and **SQL**, with a strong understanding of software development principles and best practices. Proven track record of delivering high-quality code on time and within budget. Applying for the Java Developer position at **Rilogix Technologies** India to leverage technical expertise and contribute to the development of innovative software solutions. I am passionate about developing and maintaining backend systems, collaborating with front-end developers and troubleshooting and resolving any bugs to solve customer complaints.

## EXPERIENCE

### Java Backend Developer

**RILogix Technology Pvt Ltd**      **Nov 2020 to Present**

#### Responsibility:-

- Designed and implemented efficient algorithms for data processing tasks.
- Analyzed user needs and software requirements to determine design feasibility.
- Designed and implemented high-availability applications to meet strategic goals.
- Implemented RESTful web services for various client-side applications.
- Assessed code during testing stage to determine potential glitches and bugs.
- Created SQL scripts to maintain database integrity and performance.
- Reviewed project requirements to identify customer expectations and resources needed to meet goals.
- Designed, developed and implemented firmware to support embedded system product concepts.

## EDUCATION:

**Bachelor of Technology**      **2012-2016**

**A.K.T.U.**      **Lucknow, UP**

## SKILLS

- **Programming Language:** Java, Html, CSS, JavaScript, React.Js
- **Framworks:** SpringBoot, Spring MVC, Microservices
- **Database:** MySql, MongoDB
- **Web Technology:** RESTAPI
- **Tool:** Git, Mavan
- **Test Automation:** Junit, Mockito
- **Other Technology:** Apache Kafka, AWS, Docker, Kubernetes,

## PROJECT

**TAP (Trade Assignment Portal)**      **Nov 2021 to present**

#### Description:-

Trade Assignment Portal is single electronic platform for trade assignments would enable all participants to electronically initiate, review, accept and sign AOT requests. With a streamlined, straight-through process of AOT-related workflow, buy-side and sell-side AOTs can be processed in one place Mortgage-backed Securities (MBS) Trade Assignment Portal (TAP) is Broadridge's fully transparent, secure, centralized web-based utility. It allows participants to electronically send and receive trade assignments using an automated workflow to process assignments and tailored exception-based workflows – regardless of the back-office platform. The use of E-signatures eliminates the need to download, sign, scan and email PDFs. A single wire to settle for mortgage originators and asset managers reduces costs

#### Responsibilities:

- Involved in all phases of Software Development Life Cycle (SDLC) such as design and development, deployment, testing, and fixing the production issues.
- Developed REST based web service using Spring Mvc to provide all the CRUD.
- Developed UI screens using Kendo Grid Bootstrap design Components.
- Prioritizes programming work and assigns tasks to various team members.
- Appropriately deals with problems in the team
- Regularly monitored work and cut problem members before issues became large.
- Monitored all aspects of applications being developed to ensure they met quality standards.
- Ensures applications meet the acceptance criteria

**Technology:** Java, Spring Boot, Microservices, MySql. Velocity Designer, MySql database, SOAP

## STRENGTHS

- **Adaptability:** Ability to adapt to evolving project requirements, technologies, and emerging best practices.
- **Strong Work Ethic:** Demonstrated dedication to producing high-quality code, meeting deadlines, and contributing to the success of the team and the project.
- **Detail-Oriented:** Attention to detail in coding, testing, and documentation to ensure the reliability and maintainability of the codebase.
- **Communication Skills:** Effective communication skills, both verbal and written, facilitating clear interaction with team members and stakeholders.
