CAREER OBJECTIVE

- **Full Stack Developer** with experience in designing and deploying **scalable web applications** using modern front-end and back-end technologies.
- **Expertise in solving** complex problems, enhancing system performance, and ensuring efficient solution delivery.
- Proficient in **developing and maintaining** high-performance applications with a user-centric approach.
- Seeking a **Junior Software Developer** role to contribute technical expertise in building **innovative and high-impact solutions**.

EXPERIENCE

NextTec - Technical Intern

8 Jan, 2025 - Present

- Engineered and enhanced scalable web applications using React.js and Next.js, improving performance and user experience.
- Applied and managed MongoDB for backend development, ensuring efficient data handling across multiple projects.
- Enhanced website performance, reducing load time by 40%, which led to a 20% increase in user engagement.
- Authored technical documentation, blogs, and reports, improving knowledge sharing within the team.
- Collaborated with 4+ cross-functional teams, meeting 100% of project deadlines

SKILLS

FRONT END DEVELOPMENT Next Js • React Js •

JavaScript • Tailwind CSS • HTML

BACK END DEVELOPMENT Firebase • Express Js •

MongoDB • REST APIs

MISCELLANEOUS AI Integration • Python • Git

SOFT SKILLS Problem Solving • Time Management •

Adaptability • Team Management

PROJECTS

Lumiverse | lumiverse.vercel.app

Next Js | Oct 2024

- Developed and deployed an AI-integrated platform for custom learning roadmaps, enhancing personalized education.
- Implemented cross-device accessibility with real-time progress tracking, improving user engagement.
- Integrated 24/7 doubt-solving via a global discussion forum,

fostering user collaboration.

- Improved performance with Next.js, ensuring a fast, responsive, and seamless user experience.

Snapwalls | snapwalls.vercel.app

Next Js | Dec 2024

- Designed and integrated a secure user authentication and account management system using Firebase.
- Integrated AI-powered wallpaper generation, allowing users to create custom designs based on prompts.
- Enabled cross-device access, allowing users to save and retrieve their favorite wallpapers seamlessly.
- Designed and deployed a Randomizer feature, instantly generating high-quality, unique wallpapers.

Medix AI | medix-ai.vercel.app

Next Js | Jan 2025

- Created an AI-driven platform to analyze user health data via forms and generate risk predictions .
- Designed and optimized scalable web applications using React.js and Next.js, improving load times by 30% and enhancing user experience through smoother interactions.
- Created an interactive, user-friendly UI, ensuring a seamless and engaging experience.
- Integrated Firebase DB for secure data storage and enabled downloadable health reports for users
