SUMMARY

Java Developer | Skilled in designing and implementing scalable applications using Java and Spring Boot. Extensive experience in full lifecycle project management, ensuring timely delivery of high-quality software. Proven ability to solve problems proactively and foster collaborative team environments. Committed to continuous learning and staying current with the latest software development trends.

EDUCATION

Bachelors of Technology, Information Technology

Ajay Kumar Garg Engineering College, Ghaziabad

June 2018 – July 2022

Percentile: 8.3

WORK EXPERIENCE

NAGARRO | Associate Software Engineer

July 2022 – Sept 2023

- **PayMala (E-commerce Platform):**

- Implemented RESTful APIs to facilitate communication between front-end and back-end systems, resulting in a 20% improvement in response time.
- Developed and implemented over 20 functionalities for a Spring Boot-based web application using RESTful APIs.
- Collaborated effectively with cross-functional teams to understand business requirements and translate them into technical solutions.
- Reduced code defects identified in production by 20% through participation in code reviews and providing constructive feedback on over 50 code commits, ensuring a more robust and maintainable codebase.

- **HikinjoServer (Internal Tool):**

- Participated in the full software development lifecycle (SDLC) from requirements gathering to deployment, resulting in a 20% reduction in development time.
- Leveraged Java, Spring, and other related technologies to design and implement technical solutions.
- Conducted research and analysis on emerging technology trends and implements them into existing architectures.
- Utilized SQL databases to store and retrieve data for applications, managing a database with over 10,000 records.

VECTOSCALAR | Backend Developer Intern

Jan 2022 – June 2023

- Developed and implemented 15+ new features using Express.js in a Node.js project.
- Collaborated with 50% of the development team to optimize API response times and payload size.
- Troubleshooted and resolved 25+ reported bugs using debugging techniques, improving application stability.
- Instrumental in conducting comprehensive code reviews, providing targeted feedback to enhance code quality and adherence to best practices, culminating in a 20% improvement in codebase robustness.

SKILLS

- **Languages** : Java/J2EE , C++ , JavaScript
- **TechStack** : Spring-boot , Spring MVC , J2EE, RESTful web services, Maven, JDBC
- **Concepts** : Data structure and Algo, DBMS , Object-Oriented Programming, SDLC
- **Tools** : Git, Github, VsCode, IntelliJ IDEA
- **Soft skill** : Teamwork , Adaptability , Self Motivation , Communication, Scalability
