TECHNICAL SKILLS

Languages: C/C++, JavaScript, Python, Data Structures, Algorithms, OOPs
Developer Tools: VS Code, Atom, Jupyter, Git, Postman, Vite
Technologies and Frameworks: ReactJs, Redux, NodeJs, ExpressJS, Cloud Computing, BootStrap, JavaScript, MongoDB, REST API, TypeScript, Jest, TypeScript

WORK EXPERIENCE

Crio.do ↗   **Jan-2023 – Present**
Project Engineer   *Bangalore*

- Modernized the event admin panel and created generic components feature that improved event creation efficiency by 90 percent.
- Designed and implemented a comprehensive design system to ensure a consistent visual interface throughout the application by integrating **styled components** and **Bootstrap**
- Spearheaded collaboration between the Content and Product Development teams to innovate and execute over **10** projects, leveraging cutting-edge **JavaScript** and **React** technologies.
- Demonstrated expertise in comprehensive test case development using Cypress.
- Engineered a robust authentication system for their website, a flagship project, enhancing user security and access management.

PROJECTS

Anytime Property ↗ | Vite, ReactJs, ExpressJs, MUI, JWT, MongoDB, Render

- Anytime Property is a **Real-Estate** application offering a variety of property/Home for customers to choose from.
- Created authentication, advanced filtering features, and enhanced UI with responsive design for a seamless experience across diverse devices to develop application with 100 percent responsiveness.
- Crafted Backend APIs following best practices for an Real-Estate platform, seamlessly integrating MongoDB for efficient handling of over 1000+ data entries.

Qkart-ECommerce ↗ | ReactJs, ExpressJs, MUI, JWT, MongoDB, Vercel

- QKart is an **e-commerce** application offering a variety of products for customers to choose from.
- Engineered authentication, shopping cart logic, and enhanced UI with responsive design for a consistent experience across diverse devices to develop application with 100 percent responsiveness.
- Crafted REST APIs following best practices for an E-commerce platform, seamlessly integrating MongoDB for efficient handling of over 500 data entries.
- Wrote **unit and integration tests** to test the implementation.

Jobster ↗ | ReactJs, Redux, ExpressJs, Vercel

- Created and contributed in a online website used to keeps the tracks of the jobs applied more than 1000.
- Drove the project to completion by implementing essential features.
- Implemented a robust authentication system for user registration and login. Also created the adding job functionality. Added the editing functionality to update the job status.

EDUCATION

Madan Mohan Malaviya University of Technology   **July 2019 – May 2023**
*Computer Science and Engineering - **CGPA** - **7.97***   *Gorakhpur, India*

ACHIEVEMENTS

- Secured **89th** rank on **ICPC Kanpur Regionals** 2020
- Solved **600+** problems on **LeetCode**
- Solved **500+** problem statements on **CodeForces**
- Secured **54th rank** among **20000** in **CodeChef** and also get rewarded.
- Secured **2nd rank** in a **Hackathon** organized by CES of **Madan Mohan Malviya University of Technology**.
