EDUCATION

Bachelor of Technology (Information Technology)

Greater Noida Institute of Technology,
NOIDA

2018 - 2022

UTTAR PRADESH

SKILLS

FRONT END SKILLS

. HTML/ CSS . TypeScript . Redux
. JavaScript . React . Testing . Tailwind

BACK END SKILLS

. Node.js . Jest . Express

DATABASE

. MYSQL . MONGO DB

ADDITIONAL SKILLS

. RESTful API . GIT . NPM . Babel . WebPack

TOOLS

. MySQL Workbench . Visual Studio Code

SOFT SKILLS

Team Management

Leadership

Problem-Solving

Effective Communication.

AWARDS

Received OTS SPOT Recognition
Award in Nov 2022 and DEC 2023
Recognized for exceptional performance
2 times in Conduent in 2022 and 2023.

Letter of Recommendation
LetsGrowMore (INTERNSHIP)
Recognized for outstanding web
development skills with a letter of
recommendation.

Volleyball Achievements
Represented at National and District
levels in volleyball.

SUMMARY

Front-End Developer with 2+ years of experience in Web Development. Strong knowledge of React , React router, Components , Tailwind, JWT, HTTP, context API and React hooks. Understanding of software development principles , and best practices. Skilled in front-end development using HTML, CSS, and JavaScript. Hands-on experience in writing SQL and MongoDB queries and working with MySQL and MongoDB database. Basic knowledge of GIT (version control) and testing. Strong debugging and analytical problem-solving skills.

EXPERIENCE

Frontend Developer

02/22- Present

Conduent Business India LLP

NOIDA

- Responsible for implementing pixel perfect UI using React/TypeScript and Non- Premium Custom Query.
- Implemented REST APIs using NodeJs .
- Solved business requirements using SQL queries.
- Utilized strong configuration management and version control to ensure peak system performance throughout 20+ changes.
- I have presented the client with a series of constructive suggestions aimed at enhancing the efficiency of our application.
- Collaborate with senior engineers and architects in contributing to API design and data modeling initiatives.
- Work directly with Automation engineers and clients to deliver high quality and visibility administration costs.

PROJECTS

Annual Enrollment

- Designed and built inhouse web application to record billable data of employees using HTML, CSS, JavaScript, and React. The application generated monthly and weekly reports and sent automated reminder emails using Node.js and Express.js. Worked on various enhancements and support for the Health and Welfare analysis engine system using SQL. The system calculated various H&W related calculations such as Coverage Amount, Premium, and dual year calculations.

Non-Premium Queries Automation Project

- Automated daily run queries, reducing manual effort and minimizing the chances of errors. Demonstrated strong problem-solving skills by designing and implementing a reliable and efficient Java-based automation system. Reduced the time required to run daily queries by 50%

Food Delivery App (Personal Project)

- This app is built using React. Developed a feature-rich online food delivery application using React, showcasing proficiency in core concepts, including hooks, props, JSX, and hooks Tech Stacks: React Express/TypeScript and MongoDB .

ACTIVITIES

The Complete Developers Guide to MongoDB

Applied practical experience and demonstrated proficiency in MongoDB, mongoose, and Node.js through hands-on projects, showcasing a solid understanding of database management and server-side scripting in a development environment.

The Complete Node.js Developer

Completed Node.js training from Udemy, covering Node.js basics, asynchronous programming, Express.js, JWT authentication, RESTful APIs, MongoDB database connectivity activity.

Modern React with Redux

Completed React.js/Redux training from Udemy and earned a certificate, demonstrating proficiency in core concepts including JSX, components, props, states, lifecycle methods, hooks, Redux, Redux thunk, and making API requests with Axios.

Build Responsive Real World Websites using HTML5 and CSS3

Completed Udemy training in HTML5 and CSS3, earning a certificate. Learned HTML5 syntax and CSS3, gaining the skills to create and style web pages.
