## EDUCATION

---

### Anna University, Chennai

Bachelor of Technology in Information Technology

Overall CGPA: 7.24 / 10

*August 2020 - July 2024*

### Senior Secondary Examination, Bihar Board

*July 2019 - June 2020*

## CAREER OBJECTIVE

---

To work for an organization that provides me the opportunity to improve my skills and knowledge, allowing me to grow along with the organization's objectives.

## WORK EXPERIENCE

---

### Programming Pathshala — Tech Fellowship Program

*October 2024 - Present*

- Working as a developer, contributing to various projects and enhancing technical expertise.
- Gained hands-on experience in Full Stack Development (MERN).
- Worked on the Square Foundation project, developing a scholarship platform for underprivileged students.

## PROJECTS

---

### Square Foundation (MERN Stack)

- Designed and developed a platform to offer scholarships to underprivileged students, empowering them to pursue higher education despite financial challenges.
- Implemented user authentication, scholarship application process, and an admin panel for managing applications.
- Built using MongoDB, Express.js, React.js, and Node.js (MERN Stack).
- **Live link:** [square-foundation-frontend.vercel.app](https://square-foundation-frontend.vercel.app)

### Quiz Application Using React.js

- Developed an interactive quiz application with a dynamic question-answer interface.
- Implemented features like timer-based quizzes, score tracking, and user-friendly navigation.
- Built using React.js with state management for smooth performance.
