Ajay Anand Srivastava

Software Engineer | Mern Developer | React Developer

ajaysri356@gmail.com • linkedin.com/in/ajaysri356 • Lucknow, UP • 9628136555

Summary

An enthusiastic software engineer with over 4.5 years of comprehensive experience in developing high-performing apps like React applications with an add-on off redux, typescript, express and more. Led many major projects by developing dynamic codes, reducing load times, reusable functionalities, accelerating project delivery speed and boosting the user engagement and productivity. Passionate about continual learning and keeping up with the newest tech trends, looking forward to applying proven skills to create efficient and user-friendly applications.

Experience

Career Break Hometown

Share Market Feb 2024 - Present

Used this period to focus on my passions and explore new career paths.

- Worked on myself to control emotions, fear, and greed during both winning and losing streaks..
- I focused on disciplining myself by following my rules and journaling, sleeping at the right time and waking up before the alarm sounds.
- I also explored the forex market and learned about the currency pairs, bitcoin, gold, us-oil as they are open for round the clock.
- Traveled a bit and explored a good place during this phase as boredom hit and I needed some me time to explore the outside world.
- Through this phase, I have gained a lot of knowledge about when to invest, when to withdraw, when to follow the trend, and when to avoid.

Svam International Inc.

Noida, UP

Software Engineer

Jun 2022 - Jan 2024

Led the frontend development for prominent client projects involving high-traffic web applications
