## 🚀 Skills

React.js

Redux Library

Javascript

HTML5

CSS3

Bootstrap

ES6

Communication

Problem Solving

Team work

Adaptability

## 📖 Languages

• English • Hindi

## ✛ Objective

I am a skilled React.js Developer with expertise in AWS Cognito for authentication and authorization. Proficient in React.js, Redux, ES6, JavaScript, HTML5, and CSS3, I've successfully transitioned class-based components into functional ones, optimized code, and resolved complex bugs. Six months of intensive training at Prepbytes refined my skills. During a four-month internship at Giveplease Company, I made significant contributions to project success, showcasing my commitment to excellence. I'm eager to leverage my experience and skills to drive growth and innovation on your team.

## 💼 Experience

**GivePlease**
React.js Developer
*July - October*

I have worked as a React.js developer with a background in managing code and utilizing Bitbucket for version control. My work has primarily focused on creating microsites, where I've excelled in front-end development and enhancing the user interface of databases. I bring a deep understanding of web development and a track record of successful projects in this role.

## 🎓 Education

**Kcc Institute of Technology and Management**
B.Tech , Information Technology
65%
*2018 - 2022*

**Kendriya Vidyalaya**
CS
*2018*

**Kendriya Vidyalaya**
PCM
*2016*

## 🚀 Projects

**Blog Web Application**

It is a news app which is created using React.js for frontend part and all the endpoins is handled using Node.js. For storing data Mongodb is used. It's a fully responsive Web App.

## ★ CERTIFICATION

• Completed 2 months Java Course.
• Completed MERN Stack course in 2023 and finished various projects.
