EXPERIENCE

Redcliffe Labs, Noida, India — Software Engineer

NOVEMBER 2021 - PRESENT

=> **Single-frontend-handedly developed an Inventory Module** in close coordination with stakeholders and the VP of Technology. This initiative led to a 15% reduction in monthly purchase costs for the company by enabling precise tracking capabilities for labs, Collections Centers, and HLM.

=> Collaborated with the **ZegoCloud Team for Genetic Counseling** and the **Microsoft 365 BC Team for Billing Module Integration**.

=> Contributed to the transition from a **monolithic architecture to microservices** using the Metabase Tool, Public Website, and Mini Projects.

=> Developed an online **Petty Cash management system**, streamlining expense tracking and expediting expense processing for operational and finance teams.

=> Designed **email and PDF templates** for optimal printing appearance.

=> Worked on **9+ projects across various verticals with multiple teams**.

Redcliffe Labs, Noida, India — Frontend Developer Intern

AUGUST 2021 - NOVEMBER 2021

=> **Managed the Collection Center Module** user panel, implementing efficient routing with **Router Library** and state management with **React Redux** in a Single Page Application.

Freelancer — Web Developer

TILL NOVEMBER 2021

=> Collaborated with the backend team to ensure seamless PHP integration for the **777 Stack Login Page** developed using HTML, CSS, and jQuery.

=> **Led React.js static SPA boilerplate development**, ensuring best practices and code standards.

EDUCATION

BCAS (University of Delhi), New Delhi — B.sc(H) CS

=> Attained a CGPA of 7.14 (AUGUST 2018 - JULY 2021)

BSIC, Noida, UP — XII

=> Achieved an 82% in the Allahabad Board Examination (IN 2018)
