EDUCATION

12th(CBSE)
Maharaja Agrasen Model School

04/2019 - 03/2020,   *72%*

B.VOC(SOFTWARE DEVEOPMENT)
Guru Nanak Dev Institute of Technology

08/2020 - 07/2023,   *89%*

PROJECTS

Real Estate Web Application (MERN)
- Built RESTful APIs with Node.js and express.js, facilitating data retrieval, user authentication, and property listing management.
- Used Prisma ORM for simplified database interactions and better developer experience.
- Implemented JWT-based authentication and cookies for secure, stateless user sessions.
- Implemented real-time chat functionality with Socket.io, allowing users to communicate instantly with property agents or other users, enhancing user experience.

SUBSCRIPTION BASED PLATFORM (REACT) (04/2024 - 05/2024)
- Utilized React.js alongside Chakra UI library for frontend.
- Implemented features enabling course uploading, purchasing, and wishlist addition.
- Ensured secure access to the subscriber dashboard, displaying insightful data visualizations using Chart.js.
- Integrated razorpay payment gateway for secure transactions.
- Nodemailer handling SMTP configurations and email template management to facilitate communication with users efficiently.

INTERNSHIPS

CELEBAL TECHNOLOGIES
Node JS Developer

06/2024 - 08/2024,

Achievements/Tasks
- Developed real-time code editor web application using Node.js, Express, MongoDB and implemented WebSocket protocols for live updates and notifications.
- Implemented user authentication and authorization using JWT.
- Designed and implemented routing and middleware to enhance application functionality and security.

TECHNICAL (IT) SKILLS
