EXPERIENCE

Frontend Developer   **August 2023 – Present**
(**RyientSoft Technology**)   Noida U.P

- Collaborated closely with backend teams to seamlessly integrate RESTful APIs, ensuring smooth data exchange and enhanced user interactions.
- Optimized frontend application performance by implementing best practices for state management and asynchronous operations, contributing to faster load times and a reliable user experience.
- Developed and maintained responsive, scalable web interfaces, leading to a 40% improvement in project efficiency and a 20% boost in user engagement.
- Spearheaded the integration of secure authentication and authorization mechanisms using modern libraries and tools, delivering robust access control across multiple platforms.

PROJECTS

Safai App|ROR,React.js,CSS

- Enhanced the Safai App by developing an intuitive and responsive user interface using React.js, ensuring seamless user experiences across devices.
- Collaborated with backend teams to integrate RESTful APIs, enabling efficient communication and data flow between the frontend and backend.
- Implemented frontend solutions to streamline the scheduling and tracking of waste management tasks, optimizing user interactions and task visibility.
- Utilized CSS to design visually appealing and user-friendly layouts, contributing to improved usability and overall application engagement.

Manage Phonebook-Enterprise |Ruby on Rails

- Integrated Twilio API to enable SMS features within the Manage Phonebook-Enterprise application, enhancing user engagement and real-time communication capabilities.
