WORK EXPERIENCE

Ln Bird Technology Private Ltd.

Frontend Developer Inter

Apr 2024 - Nov 2024

- Collaborated with cross-functional teams to design and develop **responsive web applications** using **React.js, JavaScript, HTML, and CSS**.
- Built and optimized **interactive UI components** to enhance user experience and performance.
- Integrated **RESTful APIs** for seamless data fetching and dynamic content rendering.
- Ensured **cross-browser compatibility** and mobile responsiveness for a consistent user experience.

EDUCATION

Lovely Professional University|Phagwara, IN

Master of Computer Application - 7.86

Aug 2021 - June 2023

Bachelor of Computer Application

Bachelor of Computer Application - 72 %

sep 2018 - June 2021

PROJECT

Weather App

mar 2024

Built a weather forecasting web application using **React, JavaScript, Axios, and CSS**.

Integrated an external API to fetch and display real-time weather data, including temperature, wind speed, humidity, and weather descriptions. Implemented a search feature allowing users to retrieve weather details for any city.
