WORK EXPERIENCE

Asst. Vice President

Macquarie Global Ltd. (Nov, 2021 – Present)

Achievement/Tasks

- Leading a QA team in the **Regulatory reporting domain (reporting to regime like ASIC, CFTC, MIFID, ESMA, SEC, EMIR, MAS, CFTC, REMIT using depositors like DTCC, UnaVista)**
- Improving the existing QA process with smaller changes like setting daily regression run with consistent result, better reporting of the test result mail, making realistic effort estimate (3 points estimate technique)
- Created a POC to automate the legacy java swing based desktop app.
- Creating the roadmap for the team deliverables
- Setting individual as well as team level objective
- Creating a single page for the QA activity to increase the visibility in front of higher management
- Preparing the metrics to show the feature coverage, automation/manual %age,
- Managing the contract with third party, involved in the hiring process

QA Lead

ION Trading India Pvt. Ltd. (Jan, 2011 – Nov, 2021)

Achievement/Tasks

- Leading a QA team in the **D2C space of fixed income domain** and managing the **50+ products (mkt gateways like BBG, TWEB, MAXESS, custom components like CTS, RLM, TFA, TFA_ARC)** testing requirements.
- **ION MarketView product specialist** with expertise on different trading environment like Rates and Credit.
- Developed a component **IMGT in java to start automation in D2C area**. It was sort of simulator with which we can control the market messages to automate the test scenarios.
- Maintaining the infra level changes of automation like **docker** setup, **CI/CD** implementation changes, integration with maven, designing the test framework and review the changes
- Mentoring the new joiner in the team
- Providing the demo to client related to function implementation
- Provided onsite training to clients like Santander, UBS, SCB for test automation framework usage.
- Providing the effort estimate to the PM
- Helping dev to replicate the prod issue
- Maintained the metrics to show the feature coverage, automation/manual %age
- Maintaining the test cases across all the products and keeping it updated with the new changes or bugs

QA

Clickable India Pvt. Ltd. (Dec, 2008 – Dec, 2010)

Achievement/Tasks

- **Created the web page to reduce the manual effort of support team to monitor the daily sync activity**, which will send the report after completion of the sync process
- Maintaining the test environment by loading the data from prod DB, deploying the application in test environment.
