PROJECTS

Fake News Detection Using Machine Learning

2022 – 2023

Fake news on different platforms is spreading widely and is a matter of serious concern, as it causes social wars and permanent breakage of the bonds established among people.

02/2022 – present

COURSES

Cloud Computing (AWS)

Galgotias University

2022 – 2023 | Greater Noida, India

- AWS (Amazon Web Services) is a comprehensive cloud computing platform provided by Amazon. It offers a wide range of cloud services, including computing power, storage, databases, analytics, machine learning, networking, and more.
- AWS provides a vast ecosystem of services and features, empowering organizations to build, deploy, and scale their applications and infrastructure in the cloud. It is widely used by businesses of all sizes, from startups to large enterprises, across various industries.

Software Testing

Edureka

2022 – 2023 | Noida, India

- Software testing is the process of evaluating a software system or application to ensure that it meets the specified requirements, functions as expected, and is free from defects or errors.
- It involves executing the software with the intention of finding bugs, verifying its functionality, and ensuring its quality.
