PERSONAL PROJECTS

SINGLE PAGE WEBSITE (09/2021 - 10/2021)
- A single page website designed using HTML, CSS.

BANKING MANAGEMENT SYSTEM (04/2022 - 06/2022)
- The main objective of bank management is to build an organic and optimal interaction system between the elements of banking mechanisms with a view to profit . Every successful banker has to perform managerial responsibilities along with technical banking activities.

COMPARATIVE STUDY OF SPAM MAIL PREDICTION (MAJOR PROJECT) (03/2023 - 06/2023)
- Spam mail has been a persistent problem for many years, and despite advances in technology, it remains a challenge for many organizations. We propose the use of machine learning techniques (KNN, Logistic regression, decision tree, random Forrest) to predict whether a given email is spam or not.
