👤 Summary

Java Developer with 1-2 years of hands-on experience in software development.Experienced Java Developer proficient in core Java, J2EE, and related technologies like JDBC, Java FX, Servlets, and JSP. Skilled in Spring Framework, including MVC, IOC, JDBC, and ORM, with expertise in Spring Boot for rapid development. Strong background in building RESTful and SOAP web services using Apache. Well-versed in Hibernate and JPA for ORM mapping, with a solid understanding of RDBMS concepts. Proficient in build tools like Maven and adept in front-end technologies such as HTML, CSS, JavaScript

🏢 Work Experience

Maxgen Technology -Pune, Maharashtra   **Feb 2023 - Current :**   *Jr.Java Developer*

- Dynamic and skilled Java Developer with expertise in core Java, J2EE, and Java technologies, including JDBC, Java FX, Servlets, and JSP.

- Proficient in Spring Framework, with hands-on experience in Spring MVC, IOC, JDBC, AOP, and ORM, leveraging Spring Boot for rapid application development.

- Experienced in building RESTful and SOAP web services using frameworks like Apache CXF and Jersey, with a strong understanding of JAX-WS/JAX-RPC standards.

- Solid understanding of Object-Oriented Programming (OOP) principles and design patterns, implementing them effectively to develop scalable and maintainable solutions.

- Skilled in utilizing Hibernate and JPA for ORM mapping and database interaction, with proficiency in PostgreSQL and RDBMS concepts.

- Familiar with build tools such as Maven and Gradle for project management and dependency management, ensuring efficient development workflows.

- Experienced in front-end development technologies including HTML, XHTML, CSS, JavaScript (including jQuery and Bootstrap), and Angular, creating dynamic and interactive user interfaces.

- Strong problem-solving abilities and analytical skills, capable of troubleshooting complex issues and implementing effective solutions.

- Proactive learner with a passion for staying updated with the latest technologies and trends in Java development, continuously seeking opportunities for skill enhancement.

- Detail-oriented with a focus on writing clean, modular, and maintainable code, adhering to coding standards and best practices.

- Committed to leveraging Java FX, web services, databases, and design patterns to develop innovative and robust software applications.

Projects

- **Twitter Clone:Social Media Platform:-HTML,CSS,Java script, MySql, Spring Boot**
Designed a user-friendly tweet-sharing platform scalable for 1 million users.Implemented Login, Signup, Create Tweet, Follow User like 10+ more features. Established Mysql for the database with all read queries under 10 milliseconds.Spring MVC for the back-end architecture with response

time under 50 milliseconds for all APIs. Ensured exceptional performance through rigorous REST API testing with 100

- **Wikipedia Fetcher Api:-HTML,CSS, Javascript, Java, MySql, Spring Boot**
  Engineered a Wikipedia query platform with JSON and HTML result formats. Employed Spring MVC for the backend infrastructure for enhanced performance. Acquired and processed data from wikipedia.org with results under 400 milliseconds.Subjected the platform to rigorous testing, with 1000+ queries like 'India,' 'America,' and more.

⚙ Skill Highlights

- ✔ Application Design
- ✔ Performance and scalability
- ✔ Version Control
- ✔ RESTful APIs design

⚙ Technical Skills

- ✔ Languages: C/C++ (Proficient), java.
- ✔ Full Stack Development : HTML,CSS, Java Backend, Hibernate, Spring MVC , Spring Boot
- ✔ Database: MySql
- ✔ Developer Tools: IntelliJ, VS Code, Git, Eclipse,

🎓 Education

Savitribai Phule Pune University   **BCA 2020-2023:**
SMBST College Sangamner, Tal- Sangamner, Dist- Ahmednagar.
