EDUCATION

Noida Institute of Engineering And Technology, *Bachelors of Technology*   08/2024 | Greater Noida, India
- **CGPA:** 8.97
- **Coursework:** Data Structures and Algorithms in JAVA, DBMS, MERN stack

PROJECTS

TaskFlex, *Task management platform for team collaboration.* 🔗
- Developed a user-friendly platform that helps teams to stay organized using **MERN** stack
- Implemented email verification via OTP using **Nodemailer**
- Added login and admin authentication to limit user accessebility using **JWT** token.
- Designed complex database schema to manage teams, tasks, comments, and members.

WeBlog, *Blog wesite for posting recipies* 🔗
- Developed a secure recipe blogging website with an integrated **jwt** user authentication system.
- User can **create, delete, login and logout** of their account.
- Implemented endpoints for enabling users to perform **CRUD** operations on post.
- Implemented user verification to ensure that users can only edit their own posts.

Campus Post, *Club mangement website for university* 🔗
- Developed a dynamic website using **React and Node.js** to showcase club information and enable users to browse club events.
- Designed and implemented a **scalable database schema** to efficiently store and retrieve club data in MongoDB.
- Implemented efficient and secure APIs to fetch club data from MongoDB.
- Developed robust routes using **React Router** for seamless navigation

PROFESSIONAL EXPERIENCE

Green Enterprise Group, *Front-End Developer*   08/2022 – 12/2022
- Implemented a User Search Page using **React.js and TypeScript** improving user experience and efficiency in fetching user data using the **RESTful API**
- Developed the Responsive Footer and Error-404 page using **HTML and Tailwind-CSS**, enhancing the overall website design and improving user navigation
- Collaborated effectively in **Agile** teams, ensuring efficient project delivery
- Built effective communication skills for **fluent cross-culture communication**

LETSGROWMORE LGMVIP, *Front-End Developer*   08/2022 – 09/2022
- Mastered Javascript by building a calculator application
- Designed and built a To-do List application using Reactjs

SKILLS

Tools	Frontend Development	Backend Development	Languages
Git, VScode, WebStorm, ClickUp, Slack	HTML5, CSS, Tailwind CSS, SCSS, JavaScript, TypeScript, React.js,	Node.js, Express, MongoDB, MySQL	Python, Java, C++

ACHIEVEMENTS

Publication 🔗
Facial Emotion Recognition using Deep learning: A case study

Solved 100+ questions on Leetcode - 🔗
Developed an exceptional proficiency in Data Structures and Algorithms (DSA).

CERTIFICATIONS

- The Bits and Bytes of Computer Networking 🔗
- IBM Introduction to Web Development with HTML, CSS, JavaScript
