PROFESSIONAL SUMMARY

Dedicated and results-driven Frontend Developer with 2 years of hands-on experience in creating scalable and responsive web applications using Vue.js and React. Proven expertise in collaborating with cross-functional teams to deliver high-quality features. Adept at troubleshooting and optimizing applications for speed and scalability. Committed to continuous learning and improvement, staying updated on emerging web development trends.

WORK EXPERIENCE

SOFTWARE ENGINEER - (FRONTEND DEVELOPER) | GREENHONCHOS PVT. LTD. | NOV 2021 - MAR 2024

- Developed and maintained scalable web applications using Vue.js and React, ensuring technical feasibility of UI/UX designs.
- Collaborated with cross-functional teams to define, design, and ship new features, mentoring junior developers and conducting code reviews.
- Identified and troubleshooted various frontend and backend issues, optimizing applications for maximum speed and scalability.
- Ensured the performance, quality, and responsiveness of applications, coordinating with QA teams for bug fixing and improvements.
- Stayed up-to-date with emerging trends in web development, implementing best practices and continuously improving software engineering skills.
- Demonstrated strong problem-solving skills, understanding of browser caching, and integration of front-end to backend functionality
- Mentored fellow developers and contributed to solving performance issues.
- Used Asana for bug tracking, issue tracking and project management function

---
