Professional Experience

FrontEnd Developer, Shorea softtech Pvt. Ltd. ✕

September 2022 – present | New Delhi, India

BuyUMe is empowering beauty professionals/salons to sell beauty services and products together. We empower beauty professionals with the technical skills to better consult with solutions, access to beauty brands at their doorsteps, and the tech tools to optimize their customer consultation and satisfaction.

Roles & Responsibilities:

- Developed and maintained React Native components, screens, and features for the mobile app using best practices. Also created Custom and interactive components using React Native.
- Currently working on making changes on the UI of few screens of app.
- **Made whole Membership framework , Free Gift on Product purchase feature , Free trail product feature , Offline Event ticket booking feature, Buy Again feature, Pin-code feature, Implemented A/B testing** using Firebase and many more etc.
- Bug fixes for existing application and application enhancement. **Also worked on company's CRM which is heavily used within the organization which helps better organize and access customer data.**
- Handled application's state management using Redux , Redux thunk .
- Worked on **Improving the UI of company's website which is buyume.io** which is build in next js.
- Collaborated with other developers to implement new features in a way that is consistent with existing codebase conventions.
- Participated in design discussions regarding application architecture, feature implementation, or any other relevant topic as required.
- Worked on a responsive design that is optimized for both desktop and mobile devices.
- Utilized version control systems such as Git to manage code changes .

Projects

Single Landing Page ✕

Food Ordering Website

Tech Stack Used: React js and redux-Toolkit

- Made fully responsive website using MUI where someone can add food in cart , delete as well as view the detail of the food including receipes.
