Meerut, India 📍

EDUCATION

Bachelor Of Computer Application
BE-CON Institute Of Technology

07/2020 - Present   *Meerut,India*

Courses
- C
- Algorithms
- Data Structure
- DBMS

WORK EXPERIENCE

Software Developer Trainee
Acquiro Solutions

05/2022 - 07/2022   *Noida*

Achievements/Tasks
- I have Worked on a Project Related to E-commerce in Which I am in Backend Team using node js ,MongoDB fo r Database.

Contact : Ayush - 7895635775

SKILLS

HTML   CSS   Javascript   Git   Github   C

C++   Data Structure   Algorithms   Mongodb

Node js   ExpressJS

PERSONAL PROJECTS

E-Commerce
- The application comes with multiple features like login/sign in, product lists, order summary, discount offers, profile section, cart items, creating payment gateway, search bar, and many more.For the back-end, use the event-driven architecture of NodeJS and call-back function when an event is triggered such as an order is placed for an item. The data of the products, ordered items, and profile details is stored in a structured way and encrypted. .Use ***ExpressJs*** which is an open-source framework for NodeJS which implements web applications quicker and easier.

Social Media App
- Social Media App for Connecting with People around the globe. Implement its back-end by setting up databases, servers, and APIs, and working out perfect storage solutions.

CERTIFICATES

Web Development
I have done a Course on Backend web development from UDEMY .I have learnt Technologies like JavaScript,Nodejs ,MongoDB.

English Speaking
I have Done a Course for English Speaking.
