- Photography
- Fitness
- listening to music

## LANGUAGES

- English
- Hindi

## ABOUT ME

I specialize in crafting visually stunning user interfaces, proficient in HTML, CSS, bootstrap, React Js, Next Js, and Redux. I excel at translating design mockups into responsive web pages for seamless user experiences. With expertise in IDEs like VS Code and Webstorm, coupled with Git version control, I ensure efficient development workflows. Let's collaborate to create captivating digital experiences.

## PROFESSIONAL EXPERIENCE

### Freelancer | Developer

Jun 2024- Aug 2024

I recently developed a professional website using Wix Studio for a dermatologist, Dr. Meghna Gupta. The site is designed to be user-friendly and informative, featuring details about treatments, patient testimonials, and an integrated appointment booking system. I focused on a clean, responsive layout that works well on both desktop and mobile, and optimized SEO to increase visibility, boosting patient inquiries. This project enhanced my skills in web design and digital solutions tailored to healthcare

## Projects:

### • Vision - Web-based AI

Vision is an intelligent, cloud-deployed chatbot system designed to transform web-based user interactions. Leveraging state-of-the-art natural language processing (NLP) techniques, it provides scalable, responsive, and engaging conversational experiences for a wide range of applications.

### • Currency Converter

Developed a currency converter using HTML, CSS, and JavaScript with real-time exchange rate calculations, dynamic updates, and a responsive design, enhancing front-end development and real-time data integration skills.
