PROFESSIONAL SUMMARY:

- **MERN/Full-stack** Software Developer with over 2+ years of hands-on experience working with cutting-edge technologies.
- Design, develop, and deploy scalable and efficient software solutions, emphasizing optimal performance and user experience.
- Proficient in JavaScript and its associated frameworks, showcasing front-end and back-end development, complemented by strong logical abilities.
- Collaborative team player and effective communicator, dedicated to achieving project objectives and ensuring the delivery of high-quality software solutions.

TECHNICAL SKILLS:

Framework and Libraries	React.js, Node.js, Redux, Express.js, Nest.js, Next.js, Tailwind CSS, Mongoose, Electron, Socket.io
Languages	JavaScript, TypeScript, HTML, CSS
Databases	SQL, MySQL, MSSQL, MongoDB, Firebase
Others	Git, Github, Redux Toolkit, React Query, TypeORM, RESTful API, DSA, XML, JSON

PROFESSIONAL EXPERIENCE:

MYSENSE TECHNOLOGIES PRIVATE LIMITED, MOHALI

Nov 2021 - PRESENT

MERN Stack Developer/ Full-stack Developer

- Developed and maintained intricate e-commerce web applications, including an Admin dashboard, Order Management System, and **Kiosk** app.
- Contributed to developing a feature-rich **Electron**-based Kiosk E-commerce desktop application, encompassing functionalities such as order placement and seamless integration with pin-pad payment systems.
- Implemented comprehensive **Google Analytics** data tracking through event triggers for the entire Kiosk E-commerce application, enhancing user insights and engagement.
- Collaborated with development and quality assurance teams to conceptualize and deliver robust solutions, ensuring high functionality and performance meet project requirements.
- Designed and constructed reusable **React** components and functions, laying the groundwork for streamlined integration into upcoming pages.
- Architected richly featured action creators and corresponding reducers in React, facilitating efficient state management and data manipulation.
- Utilized **React Axios** to make web **API** calls, effectively fetching backend data and updating **Redux** store states for seamless data synchronization.
- Employed **NestJS** to construct server-side logic and **RESTful APIs**, skillfully incorporating **middlewares**, **guards**, and **DTOs** to proficiently handle **HTTP** requests.
- Successfully implemented roles-based authentication using **JWT** access and **refresh token** cycle, bolstering application security and user authorization.
- Leveraged **MSSQL** in conjunction with TypeORM to manage data storage, skillfully designing and configuring various entities to seamlessly interact with the MS SQL database.

- Excelled as a team player with exceptional communication skills, adept at **troubleshooting, debugging**, and employing strong analytical problem-solving abilities to deliver cutting-edge technology products and consulting solutions.

EDUCATION:

Bharati Vidyapeeth College of Engineering, Pune

Jul 2017 - Oct 2021

- Bachelor of Information Technology (IT)
- CGPA - **7.58**

COURSES & TRAINING:

- The Modern Javascript Bootcamp - Colt Steele
- Modern React with Redux - Stephen Grider
- The Complete Node.js Developer Course - Andrew Mead

EXTRA-CURRICULAR:

- Followed my passion for Web Development.
- I have attended multiple programs and training sessions.
- I got overall exposure to communication by volunteering for a local college club (Leo).
- Library Head of my department for the Information Technology Student Association (ITSA).
- Technical Head at Law Labs Firms - <https://lawlabsfirm.wordpress.com>

INTERESTS:

- Pool, Cards, etc.
- Enjoy traveling and swimming.
