Email: anupritaraut96@gmail.com
Current Location: Bangalore

CAREER OBJECTIVE:

Intend to build a career with an organization to implement my theoretical ,logical ,technical skills in real life environment with committed and dedicated people which will help me explore myself fully and realize my potential, willing to work as a key player in challenging & creative environment. Grow professionally in an organization by delivering quality software to the end users after doing manual/automation testing.

IT EXPERIENCE:

- Total 4.2 years of experience in Automation.
- Worked as **Software Tester** in Test Well Technologies.(May 2018 to June 2022)

CAREER SYNOPSIS :

- Experience in analyzing functional requirements and translating them into test cases.
- Proficient in using **Selenium web Driver** to develop automation test scripts.
- Experience in Automating manual test cases to test scripts using **Selenium WebDriver.**
- Proficient in identifying web elements using different types of locators and performed action on them Using WebDriver methods.
- Experience in working on **POM (Page Object model)** with Hybrid Framework.
- Implemented **Data Driven Testing & Test-Driven Development**.
- Good knowledge in **BDD Framework**.
- Expertise in on fetching data, writing data into excel sheet using Apache Poi.
- Experience in handling different types of **pop-ups.**
- Involved in handling multiple list box.
- Utilized **TestNG annotations** and writing scripts using TestNG framework.
- Utilized **Listeners** to prepare Extent Reports.
- Implemented **Collections** in automation Concept.
- Implemented **OOPs concept** in Framework.
- Expertise in using **abstraction, polymorphism, inheritance, interface, Encapsulation**.
- Hands on **GitHub and Maven** tools and good knowledge about **Jenkins.**
- Good Exposure on **Git Commands & handling Conflicts**.
- Experience in reporting techniques.

- Hands on Experience working with **Postman** and **Rest Assured.**
- Knowledge on CRUD Operation using **Postman** & **REST Assured.**
- Knowledge on **HTTP Request, path & Query Parameter, Environment variables**.
- Good Knowledge in **Serialization** and **Deserialization** using Object Mapper.
- Good knowledge on verifying broken links and Hands on **debugging test scripts.**
- Involved in Remote Execution Using **Selenium Grid**.
- Experienced in performing cross browser execution using multiple Machines.
- Experienced in configuring Hub and node for Compatibility Testing.
- Experienced in configuring AWS machines for remote Execution.
- Performed **Smoke Testing, functional Testing, Integration Testing, System Testing**.
- Involvement in **Agile Process.**
- Worked on Test **Management Tool JIRA** for Execution and **Defect Tracking.**
- Well versed with **Software Testing Life Cycle (STLC), Bug Life Cycle.**

*TOOLS & TECHNOLOGIES USED***:**

- Test Automation Tools   : **Selenium WebDriver.**
- Unit Testing Tool   :**TestNG.**
- Test Management Tools   : **JIRA**
- Version Control Tool   : **GitHub**
- Build Management Tool   : **Maven**
- CI/CD Tool   :**Jenkins**
- Programming Language   : **Java**
- API Automation Tool   :**Postman , Rest Assured**

PROJECT DETAILS:

Project2:

Designation – Automation Test Engineer
Project name – BeatPlus.
TeamSize–6
Duration–2 Years

Project Description:

The **BeatPlus** is an integrated software that handles different directions of clinic workflows. It manage

the smooth healthcare performance along with administrative, medical, legal and financial control. That is a cornerstone for the successful operation of the healthcare facility.

My Roles and Responsibilities:

- Understanding the application and Going through the manual test cases and its automation testing requirements.
- Involved in **Agile** meetings.
- Performed **Smoke testing, functional testing, Integration testing, system testing, Regression and Smoke Testing**.
- Used **GitHub** to fetch latest framework before test script development.
- Involved in identifying and prioritizing the Test Cases to be automated.
- Involved in test script automation.
- Involved in Creating different **POM classes** for each web page.
- Worked on **TestNG annotations** and writing scripts using **TestNG framework**.
- Used **TestNG** annotations in Test Script for executing Script.
- Execute Framework in command line using **Maven Command**.
- Involved in handling different types of **pop-ups** in application using **Generic Utility Library**.
- Performed **Group Execution, Parallel and Batch execution** using **TestNG.xml**
- Involved in **Creating Extent Reports** using **Listener** Class.
- Added new reusable methods require for the new builds in the existing script.
- Involved in verifying execution reports when **Jenkins** send out **Execution report**.
- Good Exposure in API Automation by using **Postman**.
- Knowledge on **CRUD Operation** using **Postman.**
- Knowledge on **HTTP Request, path & Query Parameter, Environment variables**.
- Good Knowledge in **Serialization** and **Deserialization** using Object Mapper.
- Involved in **debugging test scripts**.
- Used JIRA tool for Reporting Bugs.
- Coordinating with Test Lead and Development Team for **Bug Fixing**.
- Involved in Analyzing **Test Results, Reporting and Tracking Defects**.
- Participated in **Daily Standup Meetings** and **Retrospect meeting.**

Project1:

Designation – Automation Test Engineer
Project name – SHERRY.
TeamSize–5
Duration–2.2 Years

Project Description:

SHERRY is used to track business resources (such as raw materials, and production capacity) and the status of commitments made by the business (such as customer orders, purchase orders), no matter which department (manufacturing, purchasing, sales, accounting, and quality   Department) has entered the data into the system.
SHERRY facilitates information flow between all business functions inside the organization, and manages connections to outside stakeholders.
The main purpose of our project was to provide them a software application as they required, so that it can help them to organize the business activities and maintain a good relationship with their customers as well as vendors.

My Roles and Responsibilities:

- Understanding the application throughly and Going through the manual test cases and its automation testing requirements.
- Involved in **Agile** meetings.
- Participated with Test Lead and Development Team for **Bug Fixing**.
- Involved in Analyzing **Test Results, Reporting and Tracking Defects**.
- Used JIRA tool for Reporting Bugs and writing test cases.
- Reviewed Test cases and updated the review comments
- Participated in **Daily Standup Meetings** and **Retrospect meeting.**
- Performed **Smoke testing, functional testing, Integration testing, system testing**.
- Involved in identifying and prioritizing the Test Cases to be automated.
- Involved in test script automation.
- Involved in Creating different **POM classes** for each web page.
- Worked on **TestNG annotations** and writing scripts using **TestNG framework**.
- Used **TestNG** annotations in Test Script for executing Script.
- Add **Maven Dependencies** as per requirement of my Framework.
- Execute Framework in command line using **Maven Command**.
- Involved in handling different types of **pop-ups** in application using **Generic Utility Library**.
- Performed **Group Execution, Parallel and Batch execution** using **TestNG.xml**

- Performed Regression testing and Smoke testing using **TestNG.xml.**
- Used **GitHub** to fetch latest framework before test script development.
- Involved in **Creating Extent Reports** using **Listener** Class.
- Added new reusable methods require for the new builds in the existing script.
- Involved in verifying execution reports when **Jenkins** send out **Execution report**.
- Involved in **debugging test scripts**.

ACADEMIC DETAILS:

- Completed BE from MGM's college of Engineering Nanded. (Maharashtra)

PERSONALDETAILS:

- Date of Birth:**27 Dec 1996**
- Gender: **Female**
- Nationality: **Indian**
- Language Known: **English ,Hindi ,Marathi**

DECLERATION:

I here by declare that all the information given above is true to best of my knowledge and belief.

Place: Bangalore   **Anuprita Sanjay Raut**
