

## ABOUT ME

Seasoned Frontend Developer with 1.5+ years of hands-on experience in ReactJS. Proven expertise in designing and functionality implementing highly responsive user interfaces, translating intricate designs into impeccable code. A portfolio boasting 10+ successfully developed applications underscores my proficiency. I excel in optimizing frontend performance, troubleshooting, and delivering top-tier user experiences. Eager to leverage my skills and creativity to contribute effectively to your team's success.

## EDUCATION

### Jamia Hamdard University

Bachelor's Degree in Computer Application  
2021 – 2024

## SKILLS

- React JS
- Next JS
- Redux-Toolkit
- Javascript
- Firebase
- MUI
- Bootstrap
- HTML
- CSS
- JEST Testing

## CERTIFICATIONS

### Frontend web Development Course

Tech Altum | September 2021 - March 2022

- 6 Month Industry Training in Frontend development

## PROFESSIONAL EXPERIENCE

### Frontend Developer

Seekware Pvt. Ltd | Feb- Aug 2023

- Identified and implemented web-based user interactions.
- Identified web-based user interactions and developed highly-responsive user interface components via React concepts
- developed highly-responsive user interface components using React concepts.
- Translated designs and wireframes into high-quality code.
- Wrote application interface code with JavaScript and React.js workflows.
- Conducted API integrations for enhanced functionality.

### Frontend Developer

Himotech Global Pvt. Ltd | Apr-Dec 2022

- UI Designing & Application Interface Coding
- Led UI design and application interface coding for optimal website aesthetics and functionality.
- Collaborated closely with the design team to achieve perfect web designs.
- Ensured responsiveness and user-friendliness in web interfaces.
- Identified web-based user interactions and developed a highly-responsive user interface.

# PROJECTS

---

## Psychix Astrologer Platform

Tech Stack: Next JS, Redux-Toolkit, Firebase, Bootstrap, Html, Css, MUI, Node JS, Stripe, Axios

I played a pivotal role in developing 'Psychix Astrologer,' a collaborative project that encompassed two vital modules: 'Find Astrologer' and 'Appointment Booking.' The application allows users to discover astrologers, book appointments, and engage in seamless video and audio calls with professionals. Our tech stack included Next.js for frontend development, Bootstrap and Material-UI (MUI) for an elegant user interface, Redux Toolkit for state management, Axios for API integration, Stripe payment processing, Firebase for real-time data management, and Node.js and Express.js for the robust backend infrastructure. This project demonstrated our proficiency in a wide array of technologies and a commitment to delivering a user-friendly and feature-rich platform.

## Lazy NFT Showcase

Tech Stack: React JS, Html, Css, MUI, Axios, React Query

Developed a user-friendly platform for showcasing NFT collections across multiple chains. Designed the UI and integrated APIs with Axios. Implemented wallet connectivity using the Rainbow Kit library.  
Tech Stack: React.js, Material-UI (MUI), Axios, React Query.

## dYdX Exchange Trading platform

Tech Stack: React JS, Html, Css, MUI, Bootstrap, Axios

Developed a dYdX Exchange clone UI using React.js with a complete Material-UI (MUI) design. This project is a blockchain-based decentralized trading platform, and I focused on creating the user interface for it.

Developed a decentralized trading platform UI based on the dYdX Exchange using React.js and Material-UI (MUI). Focused on the user interface design for a blockchain project.

## BedsDivans Ecommerce Website

Tech Stack: React JS, Next JS, Html, Css, MUI, Bootstrap, Axios, Redux-Toolkit, Node JS, Express JS

Designed and developed a feature-rich e-commerce platform using Next.js and Redux Toolkit. Implemented extensive e-commerce functionality, including cart management and advanced search features. Integrated Firebase for real-time data management, enhancing the user shopping experience.

## TMDB Movie Website Integrate Rest full API's

Tech Stack: React JS, Vite, Html, Css, MUI, Bootstrap, Axios

Created an OTT website powered by TMDB API using React.js with Vite for fast development, Axios for data retrieval, and Bootstrap for responsive design. Implemented filter functionality, advanced routing based on movie types, search functionality, and dynamic 'day' or 'week' movie type options for an immersive user experience.

## Huluny Ecommerce Application

Tech Stack: React JS, Vite, Html, Css,, Bootstrap, Axios, Redux

Developed a feature-rich e-commerce application using React.js, leveraging Axios for data retrieval and Redux for state management.

## NFT Crypto Tracker

Tech Stack: React JS, Vite, Html, Css,, Bootstrap, Axios, MUI

Built a crypto tracker web application that allows users to search for information about various cryptocurrencies. The project was developed using React.js and styled with Material-UI (MUI) for a clean and user-friendly interface.
