PERSONAL PROJECTS

Story App
- It is Story posting and reading platform which is developed using **Mongodb, Express.js, React.js,** and **Node.js(MERN).** With user authentication using **JWT, Bcrypt.**
- It have **super user** functionality with **Admin Panel**.
- It provide user **smooth UI** for posting, reading, editing story and updating user profile.
- Source code: Frontend | Backend
- Link: http://story-read.netlify.app

WORK EXPERIENCE

Software Developer Intern
ANIRVANA PRIVATE LIMITED

11/2023 - 04/2024   *Hyderabad, Telangana, India*
Achievements/Tasks
- Developed a web application utilizing **Next.js** framework with an incorporated admin dashboard (Customer Relationship Management System - **CRMS**) employing **Material UI** for streamlined user interface design.
- Developed two distinct CRM systems, namely Handle and Dreamshala, for educational startup. These systems were designed to optimize sales operations and elevate customer communication strategies.
- Implemented a feature allowing navigation links to open within the same web page as new tabs, mirroring the behavior of the Web browser.
- Leveraged core JavaScript to implement Drag and Drop functionality, providing users with an intuitive interface for organizing and managing data.
- Designed and developed a Drag and Drop form builder equipped with a variety of customizable options, including text fields, dropdown menus, multi-select fields, numerical inputs, and email fields, enhancing user flexibility and customization capabilities.
