INTERNSHIP

Software Developer Intern
Mecatredz technology - Lucknow

08/2020 - 04/2021,

During my six-month internship at Mecatredz Technology, I had the valuable opportunity to gain hands-on experience in software development and contribute to the development of a Hospital Management System. This experience allowed me to apply my skills in .NET, specifically in the MVC framework, and enhance my proficiency in jQuery for front-end development. Hospital Management System: As part of the internship, I was responsible for designing, developing, and maintaining a Hospital Management System using the .NET framework in an MVC architecture. This system aimed to streamline various hospital operations, including patient registration, appointment scheduling, billing, and record management.

Bachelor of Technology
Computer Science and Technology
