Version Control: Git, Bitbucket

Databases: MongoDB, SQL (Basic), PostgreSQL

Others: Jira, Agile (Scrum), Debugging, JWT, OAuth

EXPERIENCE

Software Engineer || *Optimiser India Pvt Ltd* || *Noida, India*

October 2022 -Present

- Developed and deployed scalable web applications using React.js and Node.js, enhancing the user experience for over 10,000 active users.
- Led the development of new features, improving system performance by 30% and reducing page load times by 20%.
- Integrated RESTful APIs with the front-end application, ensuring seamless data flow and improving user interaction.
- Skilled in database management with MongoDB
- Debugging and resolving existing system issues.
- Developing unit tests to ensure functionality.
- Maintaining high-quality coding standards.

Application Developer Intern || *Decimal technologies* || *Gurugram, India* *January 2022 - May 2022*

- At Decimal technologies, India, I served as an Application Developer Intern for 4 months.
- Designing Application Interface using their own Low code no code platform.
- Developing API and testing it on Postman.
- Testing applications for accuracy and functionality.

EDUCATION

Institute of Management Studies, Ghaziabad || **MCA (Master of Computer Application)** || CGPA:8.8 || *August 2020 - July 2022*

Bhagwati Institute of technology & Science || **BCA (Bachelor of Computer Application)** || CGPA: 6.4 || *August 2017 - July 2020*

PROJECTS

Modern Portfolio Website || *React, TypeScript, Vite, Tailwind CSS* || [Portfolio Link](#) || [GitHub](#)

- Developed a responsive portfolio website showcasing projects, experience, and skills.
- Implemented dark/light mode, Smooth animations (Framer Motion), and a modern UI (ShadcnUI).
- Integrated contact form (**Form spree**) and social media links.
- Features interactive **Project cards, downloadable resume**, and a clean accessible design.

AI Transcribe || *React, TypeScript, Vite, Tailwind CSS, Groq API* || [Live Demo](#) || [GitHub](#)

- Developed a real-time **voice-to-text transcription tool** with a sleek UI and smooth animations.
- Integrated **Groq AI API** for Instant speech to text conversion.
- Features **session history, downloadable transcript**, and an intuitive recording interface.

Weather Vue || *ReactJs, TypeScript, D3.js, Tailwind CSS, Weather API* || [GitHub](#)

- Developed a **modern, interactive weather dashboard** with real time weather data.
- Integrated D3.js to visualize **temperature trends and humidity analysis**.
- Features **city search, unit conversion, forecast display, and responsive UI**.

AI-Powered Todo List || *React, Next.js, TypeScript, Tailwind CSS, Gemini AI API* || [Live Demo](#) || [GitHub](#)

- Developed an **AI-enhanced task management** app with smart task breakdown.
- Implemented **drag-and-drop task** organization using **react-beautiful-dnd**.
- Features geolocation tracking, timestamping, and automatic saving.
