SUMMARY

- Highly motivated and skilled Full stack Developer with a Bachelor of Technology in Electronics Engineering from Rajkiya Engineering College, Sonbhadra .Experienced in creating dynamics,user-friendly web applications and chat interfaces leveraging modern technologies such as React.JS, Node.js and MongoDB . Proven ability to solve complex problems, demonstrated by solving over **400+ Data Structure and Algorithms** challenges on platform like Leetcode, GFG , Coding -Ninjas and Codechef

EXPERIENCE

Frontend Developer Intern | MNJ Software, Noida

(March 2024 – June 2024)

- Collaborated with senior developers to design and implement **10 new Chat templates**.
- Enhanced user experience by collaborating with cross-functional teams to develop innovative templates , refine user interfaces ,and implement responsive chat bots.
- Developed a responsive user interface using React and Material-UI, **achieving a 95% mobile-friendliness** score on Google Lighthouse.
- Employed modern frontend technologies to deliver high-quality ,efficient solutions within tight deadlines.

SKILLS

Languages: C++ , JavaScript

Frameworks: React , Node.js , Express

Tools: Git, VS Code, Postman.

Additional Skills: Data Structures, Algorithms.

Frontend Development: HTML , CSS, Bootstrap, Tailwind

Databases: MongoDB

Other: RESTful APIs, WebSockets.

Projects

ChitChat Application | [Code Link](#) [Live Link](#)

Mar, 2024

- Designed an attractive and user-friendly interface for chat between individuals or groups
- Utilized Socket.io for instant message loading without page refresh .
- User authentication for Login and Signup feature.
- Tech stack : React.JS , Socket.io , CSS, Chakra UI , MongoDB , Express , Node.js .

Quick Send | [Code Link](#) [Live Link](#)

Nov, 2023

- Quick Send is a file-Sharing application that allows user to upload files and generates shareable link to Recipients and Recipients can then download the files using the provide link.
- Single-Page application for seamless user experience , fast and responsive interface built with React.js
- Tech stack : React.JS , MongoDB , Express , Node.js .

X&O Showdown | [Code Link](#) [Live Link](#)

June, 2023

- This project implement the classic tic tac toe game where two player take their turns marking spaces in 3*3 grid with their symbols ("X" and "O") .
- The game also includes features like player input for names , score , tracking moves , and dark/light mode toggle.
- Developed a responsive user interface using React and Material-UI .
- Tech stack : React.JS , Bootstrap , CSS .

CERTIFICATIONS

- The Complete 2023 Web Development Bootcamp (Udemy) Nov, 2023
- Python by IIT Kanpur Mar, 2022
- Frontend Developer by MNJ Software July,2024

EDUCATION

Bachelor of Technology in Electronics Engineering | Rajkiya Engineering College, Sonbhadra

(Oct 2020 – June 2024)

- Relevant Coursework:** Machine Learning, Python, C, Artificial Intelligence, Software Engineering, Internet of Things (IoTs) , Softskills .
