## CAREER OBJECTIVE

Enthusiastic and skilled Software Developer with a strong understanding of JavaScript (ES6/ES7), **React.js**, **Node.js**, **Express.js** and **MongoDB**. Passionate about building scalable and efficient web applications while continuously improving my technical expertise.

## PROFESSIONAL EXPERIENCE

### Software Developer

#### Krishna Innovative Software Pvt. Ltd. | January 2022 – Present

- Developed and maintained web applications using the MERN stack.
- Led code reviews, provided constructive feedback, and ensured adherence to coding standards.
- Collaborated with team members to implement new features and troubleshoot issues.
- Ensured project milestones were met within deadlines.

## PROJECTS

### KIS Attendance System

#### Tech Stack (MERN STACK)

A system that allows employees to track attendance, apply for leaves, update profiles, and manage various HR functionalities.

#### Responsibilities:

- Developed dynamic forms for feedback and relieving processes.
- Implemented salary slip functionalities.
- Created document-vault features for secure file management.
- Designed and implemented status updates, sales updates, and project tracking.
- Integrated sick and maternity leave functionalities with file preview options.

### PINDO

#### Tech Stack (MEAN STACK)

A job marketplace connecting job posters (Pinner) with skilled professionals (Doers).

#### Responsibilities:

- Fixed chat system issues for seamless communication between users.
- Developed an advanced search and filter system for users based on names and locations.
- Enhanced email communication with improved formatting and accurate links.
- Implemented features for category selection, deselection, and clear-all filters.

### Cracks Unlock      Tech Stack (Node.js, Express.js, EJS and MongoDB)

Cracks Unlock is a subscription-based online testing platform designed for students to take tests and evaluate their performance. The platform provides a seamless experience for students to subscribe, attempt tests, and view their results.

#### Responsibilities:

- Students can subscribe to different plans to access test series.
- Each test consists of multiple questions in MCQ format.
- After taking a test, students can view their results.
- Admin can create tests, manage students, add coupons, etc.
