## WORK EXPERIENCE

Feb 2023 - Dec 2023

### Frontend Web Developer

India Daily News & Janbhawna Times (Sapphire media Limited)

Developing figma prototypes and expertise in developing frontend for websites.

I write code which have maximum usability, components highly independent can be called everywhere, in these technologies :

HTML, AMP, CSS, LESS, JavaScript, React.

I also optimize frontend of sites, that could load quickly and always less number of google pagespeed errors.

### Projects Developed

#### India Daily News Website

[www.theindiadaily.com](http://www.theindiadaily.com)  [www.theindiadaily.com/amp](http://www.theindiadaily.com/amp)

I have developed prototype and frontend of whole website, various frontend components are implemented and added various sliders in header and hero sections.

In news website whole code is custom in js or css layout is focused on Live TV.

This website code and layout is optimised for 7+ In page ads.

This website runs on Code Ignitor Backend Cms so mobile and desktop layouts are differently designed and optimised.

In mobile layout simple component code is used in whole page.

This will show you a great optimisation less and most efficient code.

#### Jan Bhawna Times Website

[www.thejbt.com](http://www.thejbt.com)  [www.thejbt.com/amp](http://www.thejbt.com/amp)

This is Jan Bhawna Times Newspaper website developed on Html, CSS, JavaScript and Code Ignitor Framework.

I have developed component based css html fully independent and different frontend codes are called on various devices.

I have also added amp pages specially for webstory and whole website is optimised for 16:9 Layout.

#### React Frontend Top India News Website

<https://spite.vercel.app/>

Component based react Development and wordpress rest - API data is fetched using useEffect & useState.

Parameters are passed for dynamic routing.

On click page scroll on every route, link based routing.

Process.env file is used for common routes
