### NEWS APP

The News App is a dynamic platform developed using React.js that displays news articles categorized into General, Health, Business, and Films. Users can easily navigate between different sections to view the latest updates in their preferred categories. The app fetches real-time news through an integrated API, providing an efficient and responsive user experience. With React.js, the application ensures fast rendering, smooth transitions, and an interactive interface, making it a perfect tool for keeping users informed about the latest happenings in various domains.

**TECHNOLOGIES : HTML,CSS,BOOTSTRAP, JAVASCRIPT,REACT JS**

### PORTFOLIO

The Portfolio is a personal website built with HTML, CSS, and JavaScript to showcase your skills, projects, and achievements. HTML structures the layout, CSS provides a visually appealing design, and JavaScript adds interactivity, such as dynamic content loading and animations. The responsive design ensures smooth viewing on mobile and desktop devices, highlighting your expertise in front-end development. It serves as a professional platform for potential employers or clients to explore your work.

**TECHNOLOGIES : HTML,CSS,JAVASCRIPT**

**IDE : VISUAL CODE**
