- Email: admin@demo.com
- Password: qwerty123
- Tech ReactJs,TailwindCSS,JavaScript

Used:

NeuronTech website

<https://neourntech.onrender.com/>

Developed responsive, user-friendly React UI with Tailwind; enhanced performance.

- Developed responsive React UI with Tailwind for improved user experience.
- Built user-friendly, responsive UI using React and Tailwind.

EXPERIENCE

Front End Developer

Xpecto® IT Solutions Pvt

09/2024 - Present

Noida, India

B2Bmart360

- Contributed to the admin panel of B2Bmart360
- Utilized ChartJS, TailwindCSS, and ReactJS to enhance performance and user experience
- Applied effective coding techniques to fix existing frontend bugs, ensuring a bug-free environment

IAAB Platform Development

- Led the development of the IAAB Global Accreditation (GLA) Assessment platform utilizing Next.js and Tailwind CSS, creating a responsive and modern user interface for accreditation bodies and certification agencies globally.

Black Spade Limo Service

- Utilized FileZilla to transfer files between local and remote servers, ensuring seamless uploads of HTML, CSS, JavaScript, and PHP files for website launches.
- Deployed and managed websites using cPanel, including domain setup, database creation, and SSL configuration to ensure optimal performance and security.

Space Media

- Designed and developed a responsive, user-friendly space media publication website using HTML, CSS, JavaScript, and PHP for backend integration.
- Utilized MySQL for storing and retrieving data such as articles, user profiles, and space-related news, creating a dynamic experience for visitors.

Javascript Developer

Algofolks

12/2023 - 08/2024

Sec 65 Noida

<https://www.doubtbuddy.com/>

DoubtBuddy

- Backend Development : Developed robust and efficient APIs using Node.js and Express.js, ensuring seamless front-end and database communication.
- Database Management : Designed scalable and flexible database schemas with MongoDB, implementing advanced aggregation pipelines for precise data analysis.
- Boosted client satisfaction scores by 15% by deploying responsive UI design improvements across all web platforms.

<https://temmuz.algofolks.com/>

Temmuz Agency

- Multilingual CRM Development: Created a multilingual CRM application using React.js and Node.js, enhancing user experience.
- API and Database Management: Implemented RESTful APIs and utilized MongoDB for scalable data storage.
- Secure Payment Integration: Integrated secure payment systems and implemented CRUD operations, increasing transaction reliability by 35%.

<https://zoombacar.algofolks.com/>

Zoomba Car Rental Service App

- Developed and implemented a fully responsive frontend for Zoomba Car, a car rental service app, using Bootstrap and Vue.js.

Software Trainee

Vikasit Solution

07/2023 - 12/2023

Tech Use - HTML CSS JavaScript React JS

- Written functional Components for Email Editor project in React.js.
- Designed and implemented a dynamic query builder, streamlining database interactions.
- Implemented the UI for the above-mentioned project using Shadcn and Tailwind.css.
- Git and GitHub, adept at managing repositories, branching, and collaborative workflows.
