## SUMMARY

---

Highly motivated and results-oriented Entry Level Full Stack Developer with 1 year of experience in developing and implementing innovative solutions. Skilled in optimizing website performance, reducing development time, and collaborating with cross-functional teams to achieve project goals.

## WORK EXPERIENCE

---

### Full-Stack Developer at Verbiz Solutions Private Limited

Mar 2024 - June 2024

- Created web-based CMSs to enable simplified content management, resulting in quicker updates to site information and features
- Developed web services and APIs that enabled seamless communication between front-end and back-end components, enhancing application functionality
- Optimized applications for maximum speed and scalability, resulting in a 30% reduction in page load times and a 20% increase in overall system performance.

## PROJECTS

---

### VidTube

[Link](#)

It is a YouTube Clone which is built completely using ReactJs and Google YouTube APIs.

Created a YouTube type application using React and integrating it with Google Youtube APIs for updating videos for different categories such as Gaming, Technology, Entertainment, Sports and many other categories.

Designed a nice comment section and video player which dynamically fetches data using video ID directly from Google YouTube APIs.

### SportsSpice

[Link](#)

Developed a full stack blog application using React, Node.js, Express.js, and MongoDB, integrating JWT authentication and Google OAuth for secure user access.

Created a user-friendly admin dashboard with CRUD functionalities for managing blog posts and user data, enhancing the application's usability and scalability.

Engineered a scalable architecture and employed Redux Toolkit for efficient state management, optimizing performance and facilitating seamless user interactions while ensuring the application's robustness and scalability.
