Work Experience

Workist | Frontend Developer(Intern) | Oct 2024 – Current
- Developed and maintained the front end of the Workist platform.
- Developed and optimized user interfaces using Next.js to enhance user experience and responsiveness.
- Designed and optimized job listing sections and referral card components using Tailwind CSS.
- Developed key platform features, including Dashboard, Payments, Saved Jobs, and Notifications, leveraging advanced React.js techniques such as optimized Navigation..

IFFCO Cooperative Ltd. | Web Development | July 2024-Aug 2024
- Developed a full-stack real-time tracker website using the MERN stack. Ensured application quality through testing and debugging of the user interfaces and used socket.io. Explored the integration of IT and networking within cooperative companies, emphasizing their role as supporting sectors rather than core functions.

Scholarships

- AdobeGenSolve Hackathon, Adobe India Talent Acquisition 12/08/2024
- We reached the top 5 percentile of Adobe Gensolve in this hackathon by clearing Round 1.
- Asia AI Odyssey Challenge, MicrosoftLearn May 2024
- Angular FullStack Infosys Springboard, Infosys Springboard - Team Internship July 2024
- PepSheCo, PepsiCo - Team Internshala July 2024
- I was selected among the top 1000 women for the Marketing and Sales Analyst position.

Projects

Realtime - Tracker Website | IFFCO | (Aug 2019 - Sept 2020)
- Built a real-time tracking system using Node.js, Express, and Socket.io. Maps and Leaflets were also used. Track location, speed, heading, and altitude in real time or as a one-shot request for a user. Add the pieces of data to your database, then recall the data when needed to show their position markers on your chosen map.
  .

Book Store - CRUD | IMS Ghaziabad | (May 2019 - July 2019)
- A full-stack Book application with an admin panel using React, Node JS, Express JS, Mongo DB, and Tailwind CSS. Learned to create a Task Management Application.

Financially - Your Personal Finance Tracker App | IMS Ghaziabad | (May 2019 - July 2019)
- A simple and efficient personal finance tracking application using React and Firebase. A user-friendly interface implements authentication and database functionalities to manage personal finances effectively, visualizes financial statistics, tracks transactions, and more.
