Skills

- HTML
- CSS
- Javascript
- Bootstrap
- ReactJs
- Responsive Web Design

Projects

Your-Vendors

Built a web app for vendor management. Users can add, view, edit, and delete the vendor's details through a user-friendly interface enabling smooth crud operations.

Users can experience secure logins and logout with Google OAuth authentication.

Tech-used: NextJs and MongoDB

Link: <https://nextjs-dhruv1406.vercel.app/>

Movies-Land

Built a web app to discover detailed movie information like poster, title, and released year simply by searching any movie title.

Tech-used: React and Bootstrap

Link: <https://react-movies-land.vercel.app/>

Education

B.Tech in Computer Science ITM University, Gwalior, MP | July 2014 - July 2018

Professional Experience

Project Coordinator Ayya Waste Management | August 2022 - March 2023

- Collaborated with a team of volunteers to plan and execute sustainable initiatives aimed at reducing carbon footprint and promoting environmental awareness in local communities.
- Worked on projects focused on waste management, renewable energy, and Eco-friendly practices.

Associate Sales Consultant Policy Bazaar | April 2019 - April 2022

- Identified and worked to help customers to make a better choice between policies and help them select the best policy out of it.
- Determined prospect needs and crafted appropriate responses to provide information on suitable products and services.
