NAME :

OBJECTIVE

Enthusiastic and dedicated recent graduate with a passion for **frontend development**. Proficient in **HTML, CSS, and JavaScript, TypeScript** with Knowledge of building **responsive** and **user-friendly web interfaces**. familiarity with **Angular and Bootstrap** frameworks. Proficient in **version control** using **Git and GitHub**.

TECHNICAL SKILLS

- **Programming Languages** : **TypeScript, JavaScript** .
- **Frameworks** : **Angular, Bootstrap.**
- **Web Technology** : **Angular HTML5, XML, JavaScript, CSS, Flexbox, Angular CLI, Angular Material, JSON.**
- **Operating Systems** : **Windows.**
- **Defect Tracking Tools** : **JIRA.**
- **Version Controls** : **Git,GitHub.**
- **IDE/Editors** : **Visual Studio Code.**
- **SDLCs** : **Agile and Scrum.**

PROJECTS

1) Domain : online food ordering system

Technologies Used:
Angular, HTML5, CSS3, TypeScript, Angular Router, Angular Services, Git

Roles and Responsibilities –
- Developed frontend **components** using **Angular framework,** including the header, home page, cart page, food page, search, and tags components.
- Implemented **routing configuration** using Angular Router to enable navigation between different views/pages of the application.
- Designed and **implemented services** such as FoodService and CartService to manage data retrieval and manipulation tasks.
- Defined models (e.g., Food, Tag, CartItem) to represent data entities and their relationships within the application.
- **Applied CSS** styling to create visually appealing and responsive **user interfaces**, ensuring consistency across components.
- **Implemented core functionalities** such as adding items to the cart, searching for food items, filtering by tags, and managing cart items.
- Conducted testing activities, including unit tests and **integration tests,** to ensure the reliability and correctness of the application.
- **Integrate Front end** with endpoints exposed by web services
- Design **UI** with **web technologies** provided by UX team.

2) Domain : Health Care

Roles and Responsibilities –
- Expose web services implemented using **Restful web services**.
- Designed **components modules services** using Angular.
- Extensively used Debugging **TypeScript** Using Chrome Developer Toolbar
- **Design UI** with web technologies provided by UX team.
- I**ntegrate Front end** with endpoints exposed by web services.
- Fixing the bugs and improving the product.
- Worked on highly advanced UI design & Responsible for developing the UI pages using **HTML5, CSS3, JavaScript, Angular, Bootstrap, JSON.**
- Used **Routing Guards** to **Authenticate** and Authorize user.
- Good Exposure on Routing Guards **CanActive, CanActiveChild,CanDeactive,CanLoad.**
- Implemented **LazyLoading** for application.
