## WORK EXPERIENCE

### Software Developer
**Sagar Informatics Pvt. Ltd.**

*02/2022 - Present,*                                    *New Delhi , Delhi*

*Software Developer at Sagar Informatics Pvt Ltd, I have had the privilege of contributing my skills and expertise to a wide range of projects, utilizing my knowledge of .NET, MVC, jQuery, JavaScript, WebAPI, API Integration, and SQL Server.*

*Achievements/Tasks*

- **Successful Project Delivery:** Completing a software project on time and within budget.Delivering a high-quality product that meets or exceeds client and user expectations.Achieving a high level of user satisfaction with the software.
- **Technical Achievements:** Implementing a complex algorithm or system architecture.Solving a critical technical challenge that was considered difficult.

### Logistics Projects
**Universal Express,Xpert Logistics,Namaskar Logistics,Shrikarni,Everest Logistics,ShreeSiddhi**

*02/2022 - 04/2023,*

*Support in the context of software development projects is crucial for ensuring software systems operate smoothly, remain up to date, and meet the evolving needs of users. Designed, developed, and maintained RESTful WebAPIs to facilitate seamless communication between various software components, enabling efficient data exchange and I have also worked on Billing of projects.*

### Courier Projects
**Courier Mitra,DartX,CargoLink**

*04/2023 - 01/2024,*

*It seems like you're mentioning several project names or companies (Courier Mitra, DartX, CargoLink), provide giving the support to these projects.Successfully integrated third- party APIs into our applications, improving functionality and extending the reach of our software products. Examples include payment gateways, social media APIs, and mapping services. Ex : (Fedex,ShipRocket,Rivigo)*

### Rent Management System
**MidLand**

*01/2024 -Present*

*Rent management is an integrated strategy that involves all institutional areas in order to efficiently manage new and current property for service delivery to users. The goal is to strike the ideal balance between maximizing benefits, minimizing risks, and providing the community with sufficient levels of service in a sustainable way. To create sustainable communities, sound rent management procedures are essential.*
