SUMMARY

Hi, my name is Durga sahu, currently pursuing Bachelor of Computer Applications from Swami Rama Himalayan university, Dehradun. It's been almost a year since I started learning Web development and I have and still learning a lot of FrontEnd and backend technologies along with small projects. And now I'm looking forward to put the knowledge I have to work and start my Career in the Field .

PROJECT

Ecommerce-site with admin panel

Description: Built a full-stack e-commerce platform using React, Node.js, Express, and MongoDB. Integrated an admin panel for product, order, and customer management.

Features:

- Customer: Browse and filter products, add to cart, purchase with Razorpay, track orders, and post rating , reviews.
- Admin: Create products (with image upload via Cloudinary), manage orders, update statuses, and oversee customers.

Technologies: React, Node.js, Express, MongoDB, Cloudinary.
This project showcases my expertise in developing scalable and feature-rich web applications.

JobPortal

Deve YourJobPortal is a dynamic MERN-based platform designed to connect job seekers with recruiters efficiently.

- For Job Seekers:
 - Create and update professional profiles, apply for jobs using advanced filters like location and salary, and easily manage applications.
- For Recruiters:
 - Register and create company profiles, post job openings, update hiring statuses, and manage job applications effortlessly.

With a user-friendly interface powered by React.js and ShadCN, and seamless file management via Cloudinary, YourJobPortal makes job searching and recruitment a smooth, fast, and secure process for everyone.

Other :- Chat-App, Todo-list Password generator, weather-app, Random quote Generator, Amazom Clone

Responsive small web applications using Socket React, Tailwind CSS, HTML, CSS, and JavaScript, featuring a clean and interactive user interface
