PROJECT

1) Ksolves software April 2021 - January 2022 Work on MyCrewRoom live project in Ksolves software..

- Creating routes, migration, views, controllers and work with it.
- Integrate google map API in MyCrewRoom project and add the new data on it.
- Understanding of coding tools such as Git.

2) Creating RESTFUL API using java spring boot and call the API from Angular as frontend.

- Create the controllers, service, model, repository in java and work on it. Also use the angular MVC to call the API created in java.

3) Smart sensor for material sensing during heavy fog. It's based on IOT In this project we made a device that can detect object far from us during heavy invisible fog.

4) Logicsoft International (6 month) as Associate software engineer-creating the api in java and connect with the angular as frontend

5) GDKN Technology (6 month) as Intern- Testing the website making on angular.

TECHNICAL EXPERTISE

HTML5 CSS3 Javascript

ADOBEXD JAVA SQL

Ruby on Rails Bootstrap

Spring Boot Github

WORK EXPERIENCE

Nucleus Software Exports Ltd.

(06/2022 - Present)

Associate Software Engineer

Ksolves India (04/2021 - 01/2022)

Software Engineer Trainee

Logicsoft International

(10/2020 - 03/2021)

Intern

STRENGTHS

Responsible

Self Motivated

Positive Attitude

HOBBIES

Tour Natural places

Listening Music

Some time go Slum areas and share some skills with children
