SpringBoot	● ● ● ● ●	Servelets	● ● ● ● ●
Hibernate	● ● ● ● ●	Spring	● ● ● ● ●
JPA	● ● ● ● ●	OOP's CONCEPT	● ● ● ● ●

PROJECTS

Project
Smart Contact Manager

Smart Contact Manager Web AppSmart Contact Manager Web App

-
  - Smart contact manager is a cloud based application , in which members can login their account from anywhere in the world (similar to how you can access gmail from anywhere) and members can add their contacts, modify their contacts and delete their contacts in a smarter way.
  Technology used - Spring boot , Spring Data JPA, spring security, thymeleaf, bootstrap 4, Javascript and Mysql .
  Software Program used - JDK , STS, Mysql Workbench,Spring Tool Suite.

Project 2
School Management System

SchoolERP is a web application that manages all activities related to the school management system, to manage information spanning all functional requirements like Fees collection, Report card generation, Admissions, Inventory Management, and Transportation etc. to handle information management by different modules .

Project 3
Exam Portal System

Exam Dojo is a software that provides professors a user-friendly platform to host quizzes for all of their courses while ensuring that these quizzes are answered by students in an ethical manner.

There are 2 types of profiles that are available in Exam Dojo

- Admin – to be used by the Professor
- Student

Users working on the Student Profile have the following functionalities available to them:

- Attempt Quizzes
- Review Quizzes

Software Design

This software was developed using

- Angular – Frontend

- SpringBoot – Backend
- MySQL – Database Management
