SUMMARY

- A Tech Enthusiast and result-oriented Full Stack Developer with 1+ years of corporate experience in developing and debugging web applications using React, Node and MongoDB. Strong understanding of OOP concepts and skilled in directing development with a creative and performance-oriented approach. Looking for an opportunity as a Full Stack Developer in a growth-oriented organization.

EXPERIENCE

Masheye Infotech Private Limited

Full Stack Developer

Gurgaon, India

Feb 2024 – April 2025

- **Functional Enhancements:** Developed and integrated new features into existing applications to meet client requirements, increasing product functionality by 35%. Consistently met project deadlines and received commendation for dedication and focus.
- **AI-Based Driver Monitoring System:** Designed and developed an AI-powered driver monitoring solution to analyze driving behavior, improve road safety, and help prevent accidents. Contributed to backend logic, data processing, and frontend visualizations, boosting system efficiency by 25%.

Croptr Technologies Private Limited

Full Stack Developer (Intern)

Remote, India

Aug 2023 – Jan 2024

- **Modular Programming and Performance Optimization:** Resolved bugs and enhanced system performance, resulting in a 10% increase in user satisfaction scores.
- **Scalable Data Processing Software:** Collaborated with the team to develop a scalable data processing solution adopted by over 1,000 users.

SKILLS SUMMARY

- **Languages:** Node, TypeScript, JavaScript
- **Frameworks:** React, Express, Next.js
- **Tools:** Postman, Firebase, Git, AWS
- **Software Development:** HTML, CSS, Bootstrap, Tailwind
- **Database:** MongoDB, MySQL

EDUCATION

- **Banaras Hindu University** Banaras, India
Master of Computer Applications 2020 - 2023
- **Mahatma Jyotiba Phule Rohilkhand University** Bareilly, India
Bachelor of Commerce 2017 - 2020

PROJECTS

- **AK Cinema :** Live URL [GitHub Repository](#) Developed a AK Cinema with a rich collection of movies and TV shows. The application allows users to log in or sign up using Firebase authentication, manage a personalized watchlist stored in a real-time database, and delete items as needed. Users can stream videos seamlessly with support for cross-device compatibility. Tech Stack: React.js, Firebase, Redux. (July '23)
- **E-Commerce :** [GitHub Repository](#) Developed a full-stack e-commerce application using Node.js, Express.js, MongoDB, JWT, and React. Implemented secure user authentication with JWT, product management, and personalized favorites functionality. Integrated MongoDB for data storage and retrieval, including dynamic product pages and user-specific favorites. Implemented Authentication using JWT (June '23)
- **LinkedIn Clone:** Live URL [GitHub Repository](#) Created a LinkedIn-like platform with features such as post creation, liking posts, premium trials, and user profile views. Tech Stack: ReactJS, Redux, Tailwind, Firebase, MongoDB. (May '23)

CERTIFICATES

- **Full Stack Developer Intern Certificate:** Croptr Technologies Private Limited
- **AWS Certification :** Udemy
