Professional Experience

Frontend developer, | *Zversal Pvt. Ltd*
07/2021 – present | Mohali, India
- Server side generated form to send user data on email using **AWS SES** and **Google sheet**. Built using **Nextjs.**
- Survey form that includes multiple form fields and has functionality to **take pictures and save user location**. Its a PWA built with **Reactjs.**
- Created dashboard for WhatsApp to manage templates for WhatsApp business and contact list to send those templates to multiple users. Using **Nextjs, material UI** and **Cognito** for authentication.
- Worked on a Social Media Manager platform, Users can edit posts for the individual platform as well. Using **Nextjs, material UI, Amplify UI components to build the UI and Cognito for authentication.**
- Created a platform to generate dynamic forms. Users can drag and drop data types and it will create input fields accordingly. Users can also create n number of nested forms. Uses **React, Material UI,** and **graphQL APIs** to send data.
- Worked on a website and it's admin-dashboard. Admin can manage the content of the website through its dashboard. Uses **React, material UI, and REST APIs** to communicate with the backend.
- Worked on a mobile application. My role is to create a pixel-perfect UI of the app for both IOS and Android. The app is built with **React-Native.**
- Created web-components. These are platform-independent and can be used in any frontend framework We used the **Lit elements** library by google.

React Developer Intern, | *Zversal Pvt. Ltd*
01/2021 – 07/2021 | Mohali, India
- Learned advanced React concepts.
- Understanding communication between the front end and the back end.
- Bug fixes in some live projects.
- Started working on the admin dashboard of a website. Worked on forms and graphs.
