### Surface Dekor (Attendance App)

- Built a **React Native app** enabling employees to mark attendance within a defined radius, apply for leave, and view leave balances.
- Ensured secure and user-friendly functionality for tracking attendance and managing employee records.
- Integrated real-time chat with admin and broadcast notification features for streamlined communication.

### Crownset CRM

- Developed a comprehensive CRM using **Next.js for both frontend and backend** to streamline business operations.
- Enabled lead management, employee leave applications, daily task tracking, and attendance marking features.
- Implemented functionality for generating quotations and invoices, enhancing efficiency and workflow automation.
